CARES -Coronavirus Aid, Relief, and Economic Security

NPISH -Nonprofit institutions serving households

(L) Less than \$50,000.

1. Midquarter population estimates by state are derived by BEA. BEA produced intercensal quarterly statistics for the second quarter of 2010 through the first quarter of 2020 that are tied to the Census Bureau decennial counts for 2010 and 2020. BEA developed intercensal population statistics because this data was not published when Census released state population data for 2020-2021, which are based on the 2020 decennial counts. BEA

2. Per capita personal income is total personal income divided by total quarterly population estimates. BEA produced intercensal population figures for the second quarter of 2010 to the first quarter of 2020 that are tied to the Census Bureau decennial counts for 2010 and 2020 to create consistent time series that are used to prepare per capita personal income statistics. BEA used the [Census Bureau Das Gupta method](#), modified to account for

3. A two percent reduction in reimbursements paid to Medicare service providers that went into effect in 2013 was initially suspended by the CARES Act. The resulting increased reimbursement rates went into effect beginning on May 1, 2020.

4. Unemployment insurance benefits were expanded through several programs that were initially established through the CARES Act. For more information, refer to [How will the expansion of unemployment benefits in response to the COVID-19 pandemic be recorded in the NIPAs?](#)

5. The American Rescue Plan increased the Child Tax Credit to \$3,000 per child over the age of six and \$3,600 for children under the age of six, and raised the age limit from 16 to 17. It also authorized that up to half of these credits could be distributed through advance payments during the tax year, while the rest would be claimed when parents file tax returns the following year.

6. Economic impact payments, initially established by the CARES Act, provide direct payments to individuals. For more information, refer to [How are federal economic impact payments to support individuals during the COVID-19 pandemic recorded in the NIPAs?](#)

7. The Federal Emergency Management Agency (FEMA) was authorized to make payments from the Disaster Relief Fund to supplement wages lost as a result of the COVID-19 pandemic.

8. The Paycheck Protection Program, initially established by the CARES Act, provides forgivable loans to help small businesses and nonprofit institutions make payroll and cover other expenses. It also provides funding to reimburse private lending institutions for the costs of administering these loans. For more information, refer to [How does the Paycheck Protection Program impact the national income and product accounts \(NIPAs\)?](#)

9. The Department of Health and Human Services distributes money from the Provider Relief Fund to hospitals and health care providers on the front lines of the coronavirus response. This funding supports health care-related expenses or lost revenue attributable to COVID-19 and ensures uninsured Americans can get treatment for COVID-19. In the NIPAs, funds provided to nonprofit hospitals are recorded as social benefits.

10. The Coronavirus Food Assistance Program, initially established by the CARES Act, provides direct support to farmers and ranchers where prices and market supply chains have been impacted by the COVID-19 pandemic.

Data on this table will be superseded by updated estimates. Regional estimates were controlled to the update to the National accounts released [September 29, 2022](#).

U.S. Bureau of Economic Analysis

CARES -Coronavirus Aid, Relief, and Economic Security

NPISH -Nonprofit institutions serving households

(L) Less than \$50,000.

1. Midquarter population estimates by state are derived by BEA. BEA produced intercensal quarterly statistics for the second quarter of 2010 through the first quarter of 2020 that are tied to the Census Bureau decennial counts for 2010 and 2020. BEA developed intercensal population statistics because this data was not published when Census released state population data for 2020-2021, which are based on the 2020 decennial counts. BEA
2. Per capita personal income is total personal income divided by total quarterly population estimates. BEA produced intercensal population figures for the second quarter of 2010 to the first quarter of 2020 that are tied to the Census Bureau decennial counts for 2010 and 2020 to create consistent time series that are used to prepare per capita personal income statistics. BEA used the [Census Bureau Das Gupta method](#), modified to account for
3. A two percent reduction in reimbursements paid to Medicare service providers that went into effect in 2013 was initially suspended by the CARES Act. The resulting increased reimbursement rates went into effect beginning on May 1, 2020.
4. Unemployment insurance benefits were expanded through several programs that were initially established through the CARES Act. For more information, refer to [How will the expansion of unemployment benefits in response to the COVID-19 pandemic be recorded in the NIPAs?](#)
5. The American Rescue Plan increased the Child Tax Credit to \$3,000 per child over the age of six and \$3,600 for children under the age of six, and raised the age limit from 16 to 17. It also authorized that up to half of these credits could be distributed through advance payments during the tax year, while the rest would be claimed when parents file tax returns the following year.
6. Economic impact payments, initially established by the CARES Act, provide direct payments to individuals. For more information, refer to [How are federal economic impact payments to support individuals during the COVID-19 pandemic recorded in the NIPAs?](#)
7. The Federal Emergency Management Agency (FEMA) was authorized to make payments from the Disaster Relief Fund to supplement wages lost as a result of the COVID-19 pandemic.
8. The Paycheck Protection Program, initially established by the CARES Act, provides forgivable loans to help small businesses and nonprofit institutions make payroll and cover other expenses. It also provides funding to reimburse private lending institutions for the costs of administering these loans. For more information, refer to [How does the Paycheck Protection Program impact the national income and product accounts \(NIPAs\)?](#)
9. The Department of Health and Human Services distributes money from the Provider Relief Fund to hospitals and health care providers on the front lines of the coronavirus response. This funding supports health care-related expenses or lost revenue attributable to COVID-19 and ensures uninsured Americans can get treatment for COVID-19. In the NIPAs, funds provided to nonprofit hospitals are recorded as social benefits.
10. The Coronavirus Food Assistance Program, initially established by the CARES Act, provides direct support to farmers and ranchers where prices and market supply chains have been impacted by the COVID-19 pandemic.

Data on this table will be superseded by updated estimates. Regional estimates were controlled to the update to the National accounts released [September 29, 2022](#).

U.S. Bureau of Economic Analysis

CARES -Coronavirus Aid, Relief, and Economic Security

NPISH -Nonprofit institutions serving households

(L) Less than \$50,000.

1. Midquarter population estimates by state are derived by BEA. BEA produced intercensal quarterly statistics for the second quarter of 2010 through the first quarter of 2020 that are tied to the Census Bureau decennial counts for 2010 and 2020. BEA developed intercensal population statistics because this data was not published when Census released state population data for 2020-2021, which are based on the 2020 decennial counts. BEA

2. Per capita personal income is total personal income divided by total quarterly population estimates. BEA produced intercensal population figures for the second quarter of 2010 to the first quarter of 2020 that are tied to the Census Bureau decennial counts for 2010 and 2020 to create consistent time series that are used to prepare per capita personal income statistics. BEA used the [Census Bureau Das Gupta method](#), modified to account for

3. A two percent reduction in reimbursements paid to Medicare service providers that went into effect in 2013 was initially suspended by the CARES Act. The resulting increased reimbursement rates went into effect beginning on May 1, 2020.

4. Unemployment insurance benefits were expanded through several programs that were initially established through the CARES Act. For more information, refer to [How will the expansion of unemployment benefits in response to the COVID-19 pandemic be recorded in the NIPAs?](#)

5. The American Rescue Plan increased the Child Tax Credit to \$3,000 per child over the age of six and \$3,600 for children under the age of six, and raised the age limit from 16 to 17. It also authorized that up to half of these credits could be distributed through advance payments during the tax year, while the rest would be claimed when parents file tax returns the following year.

6. Economic impact payments, initially established by the CARES Act, provide direct payments to individuals. For more information, refer to [How are federal economic impact payments to support individuals during the COVID-19 pandemic recorded in the NIPAs?](#)

7. The Federal Emergency Management Agency (FEMA) was authorized to make payments from the Disaster Relief Fund to supplement wages lost as a result of the COVID-19 pandemic.

8. The Paycheck Protection Program, initially established by the CARES Act, provides forgivable loans to help small businesses and nonprofit institutions make payroll and cover other expenses. It also provides funding to reimburse private lending institutions for the costs of administering these loans. For more information, refer to [How does the Paycheck Protection Program impact the national income and product accounts \(NIPAs\)?](#)

9. The Department of Health and Human Services distributes money from the Provider Relief Fund to hospitals and health care providers on the front lines of the coronavirus response. This funding supports health care-related expenses or lost revenue attributable to COVID-19 and ensures uninsured Americans can get treatment for COVID-19. In the NIPAs, funds provided to nonprofit hospitals are recorded as social benefits.

10. The Coronavirus Food Assistance Program, initially established by the CARES Act, provides direct support to farmers and ranchers where prices and market supply chains have been impacted by the COVID-19 pandemic.

Data on this table will be superseded by updated estimates. Regional estimates were controlled to the update to the National accounts released [September 29, 2022](#).

U.S. Bureau of Economic Analysis

CARES -Coronavirus Aid, Relief, and Economic Security

NPISH -Nonprofit institutions serving households

(L) Less than \$50,000.

1. Midquarter population estimates by state are derived by BEA. BEA produced intercensal quarterly statistics for the second quarter of 2010 through the first quarter of 2020 that are tied to the Census Bureau decennial counts for 2010 and 2020. BEA developed intercensal population statistics because this data was not published when Census released state population data for 2020-2021, which are based on the 2020 decennial counts. BEA

2. Per capita personal income is total personal income divided by total quarterly population estimates. BEA produced intercensal population figures for the second quarter of 2010 to the first quarter of 2020 that are tied to the Census Bureau decennial counts for 2010 and 2020 to create consistent time series that are used to prepare per capita personal income statistics. BEA used the [Census Bureau Das Gupta method](#), modified to account for

3. A two percent reduction in reimbursements paid to Medicare service providers that went into effect in 2013 was initially suspended by the CARES Act. The resulting increased reimbursement rates went into effect beginning on May 1, 2020.

4. Unemployment insurance benefits were expanded through several programs that were initially established through the CARES Act. For more information, refer to [How will the expansion of unemployment benefits in response to the COVID-19 pandemic be recorded in the NIPAs?](#)

5. The American Rescue Plan increased the Child Tax Credit to \$3,000 per child over the age of six and \$3,600 for children under the age of six, and raised the age limit from 16 to 17. It also authorized that up to half of these credits could be distributed through advance payments during the tax year, while the rest would be claimed when parents file tax returns the following year.

6. Economic impact payments, initially established by the CARES Act, provide direct payments to individuals. For more information, refer to [How are federal economic impact payments to support individuals during the COVID-19 pandemic recorded in the NIPAs?](#)

7. The Federal Emergency Management Agency (FEMA) was authorized to make payments from the Disaster Relief Fund to supplement wages lost as a result of the COVID-19 pandemic.

8. The Paycheck Protection Program, initially established by the CARES Act, provides forgivable loans to help small businesses and nonprofit institutions make payroll and cover other expenses. It also provides funding to reimburse private lending institutions for the costs of administering these loans. For more information, refer to [How does the Paycheck Protection Program impact the national income and product accounts \(NIPAs\)?](#)

9. The Department of Health and Human Services distributes money from the Provider Relief Fund to hospitals and health care providers on the front lines of the coronavirus response. This funding supports health care-related expenses or lost revenue attributable to COVID-19 and ensures uninsured Americans can get treatment for COVID-19. In the NIPAs, funds provided to nonprofit hospitals are recorded as social benefits.

10. The Coronavirus Food Assistance Program, initially established by the CARES Act, provides direct support to farmers and ranchers where prices and market supply chains have been impacted by the COVID-19 pandemic.

Data on this table will be superseded by updated estimates. Regional estimates were controlled to the update to the National accounts released [September 29, 2022](#).

U.S. Bureau of Economic Analysis

CARES - Coronavirus Aid, Relief, and Economic Security

NPISH - Nonprofit institutions serving households

- Midquarter population estimates by state are derived by BEA. BEA produced intercensal quarterly statistics for the second quarter of 2010 through the first quarter of 2020 that are tied to the Census Bureau decennial counts for 2010 and 2020. BEA developed intercensal population statistics because this data was not published when Census released state population data for 2020-2021, which are based on the 2020 decennial counts. BEA
- Per capita personal income is total personal income divided by total quarterly population estimates. BEA produced intercensal population figures for the second quarter of 2010 to the first quarter of 2020 that are tied to the Census Bureau decennial counts for 2010 and 2020 to create consistent time series that are used to prepare per capita personal income statistics. BEA used the [Census Bureau Das Gupta method](#), modified to account for
- A two percent reduction in reimbursements paid to Medicare service providers that went into effect in 2013 was initially suspended by the CARES Act. The resulting increased reimbursement rates went into effect beginning on May 1, 2020.
- Unemployment insurance benefits were expanded through several programs that were initially established through the CARES Act. For more information, refer to [How will the expansion of unemployment benefits in response to the COVID-19 pandemic be recorded in the NIPAs?](#)
- The American Rescue Plan increased the Child Tax Credit to \$3,000 per child over the age of six and \$3,600 for children under the age of six, and raised the age limit from 16 to 17. It also authorized that up to half of these credits could be distributed through advance payments during the tax year, while the rest would be claimed when parents file tax returns the following year.
- Economic impact payments, initially established by the CARES Act, provide direct payments to individuals. For more information, refer to <

CARES -Coronavirus Aid, Relief, and Economic Security

NPISH -Nonprofit institutions serving households

- Midquarter population estimates by state are derived by BEA. BEA produced intercensal quarterly statistics for the second quarter of 2010 through the first quarter of 2020 that are tied to the Census Bureau decennial counts for 2010 and 2020. BEA developed intercensal population statistics because this data was not published when Census released state population data for 2020-2021, which are based on the 2020 decennial counts. BEA
- Per capita personal income is total personal income divided by total quarterly population estimates. BEA produced intercensal population figures for the second quarter of 2010 to the first quarter of 2020 that are tied to the Census Bureau decennial counts for 2010 and 2020 to create consistent time series that are used to prepare per capita personal income statistics. BEA used the [Census Bureau Das Gupta method](#), modified to account for
- A two percent reduction in reimbursements paid to Medicare service providers that went into effect in 2013 was initially suspended by the CARES Act. The resulting increased reimbursement rates went into effect beginning on May 1, 2020.
- Unemployment insurance benefits were expanded through several programs that were initially established through the CARES Act. For more information, refer to [How will the expansion of unemployment benefits in response to the COVID-19 pandemic be recorded in the NIPAs?](#)
- The American Rescue Plan increased the Child Tax Credit to \$3,000 per child over the age of six and \$3,600 for children under the age of six, and raised the age limit from 16 to 17. It also authorized that up to half of these credits could be distributed through advance payments during the tax year, while the rest would be claimed when parents file tax returns the following year.
- Economic impact payments, initially established by the CARES Act, provide direct payments to individuals. For more information, refer to [How are federal economic impact payments to support individuals during the COVID-19 pandemic recorded in the NIPAs?](#)
- The Federal Emergency Management Agency (FEMA) was authorized to make payments from the Disaster Relief Fund to supplement wages lost as a result of the COVID-19 pandemic.
- The Paycheck Protection Program, initially established by the CARES Act, provides forgivable loans to help small businesses and nonprofit institutions make payroll and cover other expenses. It also provides funding to reimburse private lending institutions for the costs of administering these loans. For more information, refer to [How does the Paycheck Protection Program impact the national income and product accounts \(NIPAs\)?](#)
- The Department of Health and Human Services distributes money from the Provider Relief Fund to hospitals and health care providers on the front lines of the coronavirus response. This funding supports health care-related expenses or lost revenue attributable to COVID-19 and ensures uninsured Americans can get treatment for COVID-19. In the NIPAs, funds provided to nonprofit hospitals are recorded as social benefits.
- The Coronavirus Food Assistance Program, initially established by the CARES Act, provides direct support to farmers and ranchers where prices and market supply chains have been impacted by the COVID-19 pandemic.

Data on this table will be superseded by updated estimates. Regional estimates were controlled to the update to the National accounts released [September 29, 2022](#).

CARES -Coronavirus Aid, Relief, and Economic Security

NPISH -Nonprofit institutions serving households

- Midquarter population estimates by state are derived by BEA. BEA produced intercensal quarterly statistics for the second quarter of 2010 through the first quarter of 2020 that are tied to the Census Bureau decennial counts for 2010 and 2020. BEA developed intercensal population statistics because this data was not published when Census released state population data for 2020-2021, which are based on the 2020 decennial counts. BEA
- Per capita personal income is total personal income divided by total quarterly population estimates. BEA produced intercensal population figures for the second quarter of 2010 to the first quarter of 2020 that are tied to the Census Bureau decennial counts for 2010 and 2020 to create consistent time series that are used to prepare per capita personal income statistics. BEA used the [Census Bureau Das Gupta method](#), modified to account for
- A two percent reduction in reimbursements paid to Medicare service providers that went into effect in 2013 was initially suspended by the CARES Act. The resulting increased reimbursement rates went into effect beginning on May 1, 2020.
- Unemployment insurance benefits were expanded through several programs that were initially established through the CARES Act. For more information, refer to [How will the expansion of unemployment benefits in response to the COVID-19 pandemic be recorded in the NIPAs?](#)
- The American Rescue Plan increased the Child Tax Credit to \$3,000 per child over the age of six and \$3,600 for children under the age of six, and raised the age limit from 16 to 17. It also authorized that up to half of these credits could be distributed through advance payments during the tax year, while the rest would be claimed when parents file tax returns the following year.
- Economic impact payments, initially established by the CARES Act, provide direct payments to individuals. For more information, refer to [How are federal economic impact payments to support individuals during the COVID-19 pandemic recorded in the NIPAs?](#)
- The Federal Emergency Management Agency (FEMA) was authorized to make payments from the Disaster Relief Fund to supplement wages lost as a result of the COVID-19 pandemic.
- The Paycheck Protection Program, initially established by the CARES Act, provides forgivable loans to help small businesses and nonprofit institutions make payroll and cover other expenses. It also provides funding to reimburse private lending institutions for the costs of administering these loans. For more information, refer to [How does the Paycheck Protection Program impact the national income and product accounts \(NIPAs\)?](#)
- The Department of Health and Human Services distributes money from the Provider Relief Fund to hospitals and health care providers on the front lines of the coronavirus response. This funding supports health care-related expenses or lost revenue attributable to COVID-19 and ensures uninsured Americans can get treatment for COVID-19. In the NIPAs, funds provided to nonprofit hospitals are recorded as social benefits.
- The Coronavirus Food Assistance Program, initially established by the CARES Act, provides direct support to farmers and ranchers where prices and market supply chains have been impacted by the COVID-19 pandemic.

Data on this table will be superseded by updated estimates. Regional estimates were controlled to the update to the National accounts released [September 29, 2022](#).

U.S. Bureau of Economic Analysis

CARES -Coronavirus Aid, Relief, and Economic Security

NPISH -Nonprofit institutions serving households

(L) Less than \$50,000.

1. Midquarter population estimates by state are derived by BEA. BEA produced intercensal quarterly statistics for the second quarter of 2010 through the first quarter of 2020 that are tied to the Census Bureau decennial counts for 2010 and 2020. BEA developed intercensal population statistics because this data was not published when Census released state population data for 2020-2021, which are based on the 2020 decennial counts. BEA

2. Per capita personal income is total personal income divided by total quarterly population estimates. BEA produced intercensal population figures for the second quarter of 2010 to the first quarter of 2020 that are tied to the Census Bureau decennial counts for 2010 and 2020 to create consistent time series that are used to prepare per capita personal income statistics. BEA used the [Census Bureau Das Gupta method](#), modified to account for

3. A two percent reduction in reimbursements paid to Medicare service providers that went into effect in 2013 was initially suspended by the CARES Act. The resulting increased reimbursement rates went into effect beginning on May 1, 2020.

4. Unemployment insurance benefits were expanded through several programs that were initially established through the CARES Act. For more information, refer to [How will the expansion of unemployment benefits in response to the COVID-19 pandemic be recorded in the NIPAs?](#)

5. The American Rescue Plan increased the Child Tax Credit to \$3,000 per child over the age of six and \$3,600 for children under the age of six, and raised the age limit from 16 to 17. It also authorized that up to half of these credits could be distributed through advance payments during the tax year, while the rest would be claimed when parents file tax returns the following year.

6. Economic impact payments, initially established by the CARES Act, provide direct payments to individuals. For more information, refer to [How are federal economic impact payments to support individuals during the COVID-19 pandemic recorded in the NIPAs?](#)

7. The Federal Emergency Management Agency (FEMA) was authorized to make payments from the Disaster Relief Fund to supplement wages lost as a result of the COVID-19 pandemic.

8. The Paycheck Protection Program, initially established by the CARES Act, provides forgivable loans to help small businesses and nonprofit institutions make payroll and cover other expenses. It also provides funding to reimburse private lending institutions for the costs of administering these loans. For more information, refer to [How does the Paycheck Protection Program impact the national income and product accounts \(NIPAs\)?](#)

9. The Department of Health and Human Services distributes money from the Provider Relief Fund to hospitals and health care providers on the front lines of the coronavirus response. This funding supports health care-related expenses or lost revenue attributable to COVID-19 and ensures uninsured Americans can get treatment for COVID-19. In the NIPAs, funds provided to nonprofit hospitals are recorded as social benefits.

10. The Coronavirus Food Assistance Program, initially established by the CARES Act, provides direct support to farmers and ranchers where prices and market supply chains have been impacted by the COVID-19 pandemic.

Data on this table will be superseded by updated estimates. Regional estimates were controlled to the update to the National accounts released [September 29, 2022](#).

U.S. Bureau of Economic Analysis

CARES -Coronavirus Aid, Relief, and Economic Security

NPISH -Nonprofit institutions serving households

- Midquarter population estimates by state are derived by BEA. BEA produced intercensal quarterly statistics for the second quarter of 2010 through the first quarter of 2020 that are tied to the Census Bureau decennial counts for 2010 and 2020. BEA developed intercensal population statistics because this data was not published when Census released state population data for 2020-2021, which are based on the 2020 decennial counts. BEA
- Per capita personal income is total personal income divided by total quarterly population estimates. BEA produced intercensal population figures for the second quarter of 2010 to the first quarter of 2020 that are tied to the Census Bureau decennial counts for 2010 and 2020 to create consistent time series that are used to prepare per capita personal income statistics. BEA used the [Census Bureau Das Gupta method](#), modified to account for
- A two percent reduction in reimbursements paid to Medicare service providers that went into effect in 2013 was initially suspended by the CARES Act. The resulting increased reimbursement rates went into effect beginning on May 1, 2020.
- Unemployment insurance benefits were expanded through several programs that were initially established through the CARES Act. For more information, refer to [How will the expansion of unemployment benefits in response to the COVID-19 pandemic be recorded in the NIPAs?](#)
- The American Rescue Plan increased the Child Tax Credit to \$3,000 per child over the age of six and \$3,600 for children under the age of six, and raised the age limit from 16 to 17. It also authorized that up to half of these credits could be distributed through advance payments during the tax year, while the rest would be claimed when parents file tax returns the following year.
- Economic impact payments, initially established by the CARES Act, provide direct payments to individuals. For more information, refer to [How are federal economic impact payments to support individuals during the COVID-19 pandemic recorded in the NIPAs?](#)
- The Federal Emergency Management Agency (FEMA) was authorized to make payments from the Disaster Relief Fund to supplement wages lost as a result of the COVID-19 pandemic.
- The Paycheck Protection Program, initially established by the CARES Act, provides forgivable loans to help small businesses and nonprofit institutions make payroll and cover other expenses. It also provides funding to reimburse private lending institutions for the costs of administering these loans. For more information, refer to [How does the Paycheck Protection Program impact the national income and product accounts \(NIPAs\)?](#)
- The Department of Health and Human Services distributes money from the Provider Relief Fund to hospitals and health care providers on the front lines of the coronavirus response. This funding supports health care-related expenses or lost revenue attributable to COVID-19 and ensures uninsured Americans can get treatment for COVID-19. In the NIPAs, funds provided to nonprofit hospitals are recorded as social benefits.
- The Coronavirus Food Assistance Program, initially established by the CARES Act, provides direct support to farmers and ranchers where prices and market supply chains have been impacted by the COVID-19 pandemic.

Data on this table will be superseded by updated estimates. Regional estimates were controlled to the update to the National accounts released [September 29, 2022](#).

U.S. Bureau of Economic Analysis

CARES -Coronavirus Aid, Relief, and Economic Security

NPISH -Nonprofit institutions serving households

(L) Less than \$50,000.

1. Midquarter population estimates by state are derived by BEA. BEA produced intercensal quarterly statistics for the second quarter of 2010 through the first quarter of 2020 that are tied to the Census Bureau decennial counts for 2010 and 2020. BEA developed intercensal population statistics because this data was not published when Census released state population data for 2020-2021, which are based on the 2020 decennial counts. BEA

2. Per capita personal income is total personal income divided by total quarterly population estimates. BEA produced intercensal population figures for the second quarter of 2010 to the first quarter of 2020 that are tied to the Census Bureau decennial counts for 2010 and 2020 to create consistent time series that are used to prepare per capita personal income statistics. BEA used the [Census Bureau Das Gupta method](#), modified to account for

3. A two percent reduction in reimbursements paid to Medicare service providers that went into effect in 2013 was initially suspended by the CARES Act. The resulting increased reimbursement rates went into effect beginning on May 1, 2020.

4. Unemployment insurance benefits were expanded through several programs that were initially established through the CARES Act. For more information, refer to [How will the expansion of unemployment benefits in response to the COVID-19 pandemic be recorded in the NIPAs?](#)

5. The American Rescue Plan increased the Child Tax Credit to \$3,000 per child over the age of six and \$3,600 for children under the age of six, and raised the age limit from 16 to 17. It also authorized that up to half of these credits could be distributed through advance payments during the tax year, while the rest would be claimed when parents file tax returns the following year.

6. Economic impact payments, initially established by the CARES Act, provide direct payments to individuals. For more information, refer to [How are federal economic impact payments to support individuals during the COVID-19 pandemic recorded in the NIPAs?](#)

7. The Federal Emergency Management Agency (FEMA) was authorized to make payments from the Disaster Relief Fund to supplement wages lost as a result of the COVID-19 pandemic.

8. The Paycheck

CARES -Coronavirus Aid, Relief, and Economic Security

NPISH -Nonprofit institutions serving households

- Midquarter population estimates by state are derived by BEA. BEA produced intercensal quarterly statistics for the second quarter of 2010 through the first quarter of 2020 that are tied to the Census Bureau decennial counts for 2010 and 2020. BEA developed intercensal population statistics because this data was not published when Census released state population data for 2020-2021, which are based on the 2020 decennial counts. BEA
- Per capita personal income is total personal income divided by total quarterly population estimates. BEA produced intercensal population figures for the second quarter of 2010 to the first quarter of 2020 that are tied to the Census Bureau decennial counts for 2010 and 2020 to create consistent time series that are used to prepare per capita personal income statistics. BEA used the [Census Bureau Das Gupta method](#), modified to account for
- A two percent reduction in reimbursements paid to Medicare service providers that went into effect in 2013 was initially suspended by the CARES Act. The resulting increased reimbursement rates went into effect beginning on May 1, 2020.
- Unemployment insurance benefits were expanded through several programs that were initially established through the CARES Act. For more information, refer to [How will the expansion of unemployment benefits in response to the COVID-19 pandemic be recorded in the NIPAs?](#)
- The American Rescue Plan increased the Child Tax Credit to \$3,000 per child over the age of six and \$3,600 for children under the age of six, and raised the age limit from 16 to 17. It also authorized that up to half of these credits could be distributed through advance payments during the tax year, while the rest would be claimed when parents file tax returns the following year.
- Economic impact payments, initially established by the CARES Act, provide direct payments to individuals. For more information, refer to [How are federal economic impact payments to support individuals during the COVID-19 pandemic recorded in the NIPAs?](#)
- The Federal Emergency Management Agency (FEMA) was authorized to make payments from the Disaster Relief Fund to supplement wages lost as a result of the COVID-19 pandemic.
- The Paycheck Protection Program, initially established by the CARES Act, provides forgivable loans to help small businesses and nonprofit institutions make payroll and cover other expenses. It also provides funding to reimburse private lending institutions for the costs of administering these loans. For more information, refer to [How does the Paycheck Protection Program impact the national income and product accounts \(NIPAs\)?](#)
- The Department of Health and Human Services distributes money from the Provider Relief Fund to hospitals and health care providers on the front lines of the coronavirus response. This funding supports health care-related expenses or lost revenue attributable to COVID-19 and ensures uninsured Americans can get treatment for COVID-19. In the NIPAs, funds provided to nonprofit hospitals are recorded as social benefits.
- The Coronavirus Food Assistance Program, initially established by the CARES Act, provides direct support to farmers and ranchers where prices and market supply chains have been impacted by the COVID-19 pandemic.

Data on this table will be superseded by updated estimates. Regional estimates were controlled to the update to the National accounts released [September 29, 2022](#).

CARES - Coronavirus Aid, Relief, and Economic Security

NPISH - Nonprofit institutions serving households

- Midquarter population estimates by state are derived by BEA. BEA produced intercensal quarterly statistics for the second quarter of 2010 through the first quarter of 2020 that are tied to the Census Bureau decennial counts for 2010 and 2020. BEA developed intercensal population statistics because this data was not published when Census released state population data for 2020-2021, which are based on the 2020 decennial counts. BEA
- Per capita personal income is total personal income divided by total quarterly population estimates. BEA produced intercensal population figures for the second quarter of 2010 to the first quarter of 2020 that are tied to the Census Bureau decennial counts for 2010 and 2020 to create consistent time series that are used to prepare per capita personal income statistics. BEA used the [Census Bureau Das Gupta method](#), modified to account for
- A two percent reduction in reimbursements paid to Medicare service providers that went into effect in 2013 was initially suspended by the CARES Act. The resulting increased reimbursement rates went into effect beginning on May 1, 2020.
- Unemployment insurance benefits were expanded through several programs that were initially established through the CARES Act. For more information, refer to [How will the expansion of unemployment benefits in response to the COVID-19 pandemic be recorded in the NIPAs?](#)
- The American Rescue Plan increased the Child Tax Credit to \$3,000 per child over the age of six and \$3,600 for children under the age of six, and raised the age limit from 16 to 17. It also authorized that up to half of these credits could be distributed through advance payments during the tax year, while the rest would be claimed when parents file tax returns the following year.
- Economic impact payments, initially established by the CARES Act, provide direct payments to individuals. For more information, refer to [How are federal economic impact payments to support individuals during the COVID-19 pandemic recorded in the NIPAs?](#)
- The Federal Emergency Management Agency (FEMA) was authorized to make payments from the Disaster Relief Fund to supplement wages lost as a result of the COVID-19 pandemic.
- The Paycheck Protection Program, initially established by the CARES Act, provides forgivable loans to help small businesses and nonprofit institutions make payroll and cover other expenses. It also provides funding to reimburse private lending institutions for the costs of administering these loans. For more information, refer to [How does the Paycheck Protection Program impact the national income and product accounts \(NIPAs\)?](#)
- The Department of Health and Human Services distributes money from the Provider Relief Fund to hospitals and health care providers on the front lines of the coronavirus response. This funding supports health care-related expenses or lost revenue attributable to COVID-19 and ensures uninsured Americans can get treatment for COVID-19. In the NIPAs, funds provided to nonprofit hospitals are recorded as social benefits.
- The Coronavirus Food Assistance Program, initially established by the CARES Act, provides direct support to farmers and ranchers where prices and market supply chains have been impacted by the COVID-19 pandemic.

Data on this table will be superseded by updated estimates. Regional estimates were controlled to the update to the National accounts released [September 29, 2022](#).

CARES -Coronavirus Aid, Relief, and Economic Security

NPISH -Nonprofit institutions serving households

(L) Less than \$50,000.

1. Midquarter population estimates by state are derived by BEA. BEA produced intercensal quarterly statistics for the second quarter of 2010 through the first quarter of 2020 that are tied to the Census Bureau decennial counts for 2010 and 2020. BEA developed intercensal population statistics because this data was not published when Census released state population data for 2020-2021, which are based on the 2020 decennial counts. BEA

2. Per capita personal income is total personal income divided by total quarterly population estimates. BEA produced intercensal population figures for the second quarter of 2010 to the first quarter of 2020 that are tied to the Census Bureau decennial counts for 2010 and 2020 to create consistent time series that are used to prepare per capita personal income statistics. BEA used the [Census Bureau Das Gupta method](#), modified to account for

3. A two percent reduction in reimbursements paid to Medicare service providers that went into effect in 2013 was initially suspended by the CARES Act. The resulting increased reimbursement rates went into effect beginning on May 1, 2020.

4. Unemployment insurance benefits were expanded through several programs that were initially established through the CARES Act. For more information, refer to [How will the expansion of unemployment benefits in response to the COVID-19 pandemic be recorded in the NIPAs?](#)

5. The American Rescue Plan increased the Child Tax Credit to \$3,000 per child over the age of six and \$3,600 for children under the age of six, and raised the age limit from 16 to 17. It also authorized that up to half of these credits could be distributed through advance payments during the tax year, while the rest would be claimed when parents file tax returns the following year.

6. Economic impact payments, initially established by the CARES Act, provide direct payments to individuals. For more information, refer to [How are federal economic impact payments to support individuals during the COVID-19 pandemic recorded in the NIPAs?](#)

7. The Federal Emergency Management Agency (FEMA) was authorized to make payments from the Disaster Relief Fund to supplement wages lost as a result of the COVID-19 pandemic.

8. The Paycheck Protection Program, initially established by the CARES Act, provides forgivable loans to help small businesses and nonprofit institutions make payroll and cover other expenses. It also provides funding to reimburse private lending institutions for the costs of administering these loans. For more information, refer to [How does the Paycheck Protection Program impact the national income and product accounts \(NIPAs\)?](#)

9. The Department of Health and Human Services distributes money from the Provider Relief Fund to hospitals and health care providers on the front lines of the coronavirus response. This funding supports health care-related expenses or lost revenue attributable to COVID-19 and ensures uninsured Americans can get treatment for COVID-19. In the NIPAs, funds provided to nonprofit hospitals are recorded as social benefits.

10. The Coronavirus Food Assistance Program, initially established by the CARES Act, provides direct support to farmers and ranchers where prices and market supply chains have been impacted by the COVID-19 pandemic.

Data on this table will be superseded by updated estimates. Regional estimates were controlled to the update to the National accounts released [September 29, 2022](#).

U.S. Bureau of Economic Analysis

CARES -Coronavirus Aid, Relief, and Economic Security

NPISH -Nonprofit institutions serving households

(L) Less than \$50,000.

1. Midquarter population estimates by state are derived by BEA. BEA produced intercensal quarterly statistics for the second quarter of 2010 through the first quarter of 2020 that are tied to the Census Bureau decennial counts for 2010 and 2020. BEA developed intercensal population statistics because this data was not published when Census released state population data for 2020-2021, which are based on the 2020 decennial counts. BEA

2. Per capita personal income is total personal income divided by total quarterly population estimates. BEA produced intercensal population figures for the second quarter of 2010 to the first quarter of 2020 that are tied to the Census Bureau decennial counts for 2010 and 2020 to create consistent time series that are used to prepare per capita personal income statistics. BEA used the [Census Bureau Das Gupta method](#), modified to account for

3. A two percent reduction in reimbursements paid to Medicare service providers that went into effect in 2013 was initially suspended by the CARES Act. The resulting increased reimbursement rates went into effect beginning on May 1, 2020.

4. Unemployment insurance benefits were expanded through several programs that were initially established through the CARES Act. For more information, refer to [How will the expansion of unemployment benefits in response to the COVID-19 pandemic be recorded in the NIPAs?](#)

5. The American Rescue Plan increased the Child Tax Credit to \$3,000 per child over the age of six and \$3,600 for children under the age of six, and raised the age limit from 16 to 17. It also authorized that up to half of these credits could be distributed through advance payments during the tax year, while the rest would be claimed when parents file tax returns the following year.

6. Economic impact payments, initially established by the CARES Act, provide direct payments to individuals. For more information, refer to [How are federal economic impact payments to support individuals during the COVID-19 pandemic recorded in the NIPAs?](#)

7. The Federal Emergency Management Agency (FEMA) was authorized to make payments from the Disaster Relief Fund to supplement wages lost as a result of the COVID-19 pandemic.

8. The Paycheck Protection Program, initially established by the CARES Act, provides forgivable loans to help small businesses and nonprofit institutions make payroll and cover other expenses. It also provides funding to reimburse private lending institutions for the costs of administering these loans. For more information, refer to [How does the Paycheck Protection Program impact the national income and product accounts](#)

CARES -Coronavirus Aid, Relief, and Economic Security

NPISH -Nonprofit institutions serving households

(L) Less than \$50,000.

1. Midquarter population estimates by state are derived by BEA. BEA produced intercensal quarterly statistics for the second quarter of 2010 through the first quarter of 2020 that are tied to the Census Bureau decennial counts for 2010 and 2020. BEA developed intercensal population statistics because this data was not published when Census released state population data for 2020-2021, which are based on the 2020 decennial counts. BEA

2. Per capita personal income is total personal income divided by total quarterly population estimates. BEA produced intercensal population figures for the second quarter of 2010 to the first quarter of 2020 that are tied to the Census Bureau decennial counts for 2010 and 2020 to create consistent time series that are used to prepare per capita personal income statistics. BEA used the [Census Bureau Das Gupta method](#), modified to account for

3. A two percent reduction in reimbursements paid to Medicare service providers that went into effect in 2013 was initially suspended by the CARES Act. The resulting increased reimbursement rates went into effect beginning on May 1, 2020.

4. Unemployment insurance benefits were expanded through several programs that were initially established through the CARES Act. For more information, refer to [How will the expansion of unemployment benefits in response to the COVID-19 pandemic be recorded in the NIPAs?](#)

5. The American Rescue Plan increased the Child Tax Credit to \$3,000 per child over the age of six and \$3,600 for children under the age of six, and raised the age limit from 16 to 17. It also authorized that up to half of these credits could be distributed through advance payments during the tax year, while the rest would be claimed when parents file tax returns the following year.

6. Economic impact payments, initially established by the CARES Act, provide direct payments to individuals. For more information, refer to [How are federal economic impact payments to support individuals during the COVID-19 pandemic recorded in the NIPAs?](#)

7. The Federal Emergency Management Agency (FEMA) was authorized to make payments from the Disaster Relief Fund to supplement wages lost as a result of the COVID-19 pandemic.

8. The Paycheck Protection Program, initially established by the CARES Act, provides forgivable loans to help small businesses and nonprofit institutions make payroll and cover other expenses. It also provides funding to reimburse private lending institutions for the costs of administering these loans. For more information, refer to [How does the Paycheck Protection Program impact the national income and product accounts \(NIPAs\)?](#)

9. The Department of Health and Human Services distributes money from the Provider Relief Fund to hospitals and health care providers on the front lines of the coronavirus response. This funding supports health care-related expenses or lost revenue attributable to COVID-19 and ensures uninsured Americans can get treatment for COVID-19. In the NIPAs, funds provided to nonprofit hospitals are recorded as social benefits.

10. The Coronavirus Food Assistance Program, initially established by the CARES Act, provides direct support to farmers and ranchers where prices and market supply chains have been impacted by the COVID-19 pandemic.

Data on this table will be superseded by updated estimates. Regional estimates were controlled to the update to the National accounts released [September 29, 2022](#).

NPISH -Nonprofit institutions serving households

(L) Less than \$50,000.

1. Midquarter population estimates by state are derived by BEA. BEA produced intercensal quarterly statistics for the second quarter of 2010 through the first quarter of 2020 that are tied to the Census Bureau decennial counts for 2010 and 2020. BEA developed intercensal population statistics because this data was not published when Census released state population data for 2020-2021, which are based on the 2020 decennial counts. BEA

2. Per capita personal income is total personal income divided by total quarterly population estimates. BEA produced intercensal population figures for the second quarter of 2010 to the first quarter of 2020 that are tied to the Census Bureau decennial counts for 2010 and 2020 to create consistent time series that are used to prepare per capita personal income statistics. BEA used the [Census Bureau Das Gupta method](#), modified to account for

3. A two percent reduction in reimbursements paid to Medicare service providers that went into effect in 2013 was initially suspended by the CARES Act. The resulting increased reimbursement rates went into effect beginning on May 1, 2020.

4. Unemployment insurance benefits were expanded through several programs that were initially established through the CARES Act. For more information, refer to [How will the expansion of unemployment benefits in response to the COVID-19 pandemic be recorded in the NIPAs?](#)

5. The American Rescue Plan increased the Child Tax Credit to \$3,000 per child over the age of six and \$3,600 for children under the age of six, and raised the age limit from 16 to 17. It also authorized that up to half of these credits could be distributed through advance payments during the tax year, while the rest would be claimed when parents file tax returns the following year.

6. Economic impact payments, initially established by the CARES Act, provide direct payments to individuals. For more information, refer to [How are federal economic impact payments to support individuals during the COVID-19 pandemic recorded in the NIPAs?](#)

7. The Federal Emergency Management Agency (FEMA) was authorized to make payments from the Disaster Relief Fund to supplement wages lost as a result of the COVID-19 pandemic.

8. The Paycheck Protection Program, initially established by the CARES Act, provides forgivable loans to help small businesses and nonprofit institutions make payroll and cover other expenses. It also provides funding to reimburse private lending institutions for the costs of administering these loans. For more information, refer to [How does the Paycheck Protection Program impact the national income and product accounts \(NIPAs\)?](#)

9. The Department of Health and Human Services distributes money from the Provider Relief Fund to hospitals and health care providers on the front lines of the coronavirus response. This funding supports health care-related expenses or lost revenue attributable to COVID-19 and ensures uninsured Americans can get treatment for COVID-19. In the NIPAs, funds provided to nonprofit hospitals are recorded as social benefits.

10. The Coronavirus Food Assistance Program, initially established by the CARES Act, provides direct support to farmers and ranchers where prices and market supply chains have been impacted by the COVID-19 pandemic.

Data on this table will be superseded by updated estimates. Regional estimates were controlled to the update to the National accounts released [September 29, 2022](#).

CARES -Coronavirus Aid, Relief, and Economic Security

NPISH -Nonprofit institutions serving households

(L) Less than \$50,000.

1. Midquarter population estimates by state are derived by BEA. BEA produced intercensal quarterly statistics for the second quarter of 2010 through the first quarter of 2020 that are tied to the Census Bureau decennial counts for 2010 and 2020. BEA developed intercensal population statistics because this data was not published when Census released state population data for 2020-2021, which are based on the 2020 decennial counts. BEA

2. Per capita personal income is total personal income divided by total quarterly population estimates. BEA produced intercensal population figures for the second quarter of 2010 to the first quarter of 2020 that are tied to the Census Bureau decennial counts for 2010 and 2020 to create consistent time series that are used to prepare per capita personal income statistics. BEA used the [Census Bureau Das Gupta method](#), modified to account for

3. A two percent reduction in reimbursements paid to Medicare service providers that went into effect in 2013 was initially suspended by the CARES Act. The resulting increased reimbursement rates went into effect beginning on May 1, 2020.

4. Unemployment insurance benefits were expanded through several programs that were initially established through the CARES Act. For more information, refer to [How will the expansion of unemployment benefits in response to the COVID-19 pandemic be recorded in the NIPAs?](#)

5. The American Rescue Plan increased the Child Tax Credit to \$3,000 per child over the age of six and \$3,600 for children under the age of six, and raised the age limit from 16 to 17. It also authorized that up to half of these credits could be distributed through advance payments during the tax year, while the rest would be claimed when parents file tax returns the following year.

6. Economic impact payments, initially established by the CARES Act, provide direct payments to individuals. For more information, refer to [How are federal economic impact payments to support individuals during the COVID-19 pandemic recorded in the NIPAs?](#)

7. The Federal Emergency Management Agency (FEMA) was authorized to make payments from the Disaster Relief Fund to supplement wages lost as a result of the COVID-19 pandemic.

8. The Paycheck Protection Program, initially established by the CARES Act, provides forgivable loans to help small businesses and nonprofit institutions make payroll and cover other expenses. It also provides funding to reimburse private lending institutions for the costs of administering these loans. For more information, refer to [How does the Paycheck Protection Program impact the national income and product accounts \(NIPAs\)?](#)

9. The Department of Health and Human Services distributes money from the Provider Relief Fund to hospitals and health care providers on the front lines of the coronavirus response. This funding supports health care-related expenses or lost revenue attributable to COVID-19 and ensures uninsured Americans can get treatment for COVID-19. In the NIPAs, funds provided to nonprofit hospitals are recorded as social benefits.

10. The Coronavirus Food Assistance Program, initially established by the CARES Act, provides direct support to farmers and ranchers where prices and market supply chains have been impacted by the COVID-19 pandemic.

Data on this table will be superseded by updated estimates. Regional estimates were controlled to the update to the National accounts released [September 29, 2022](#).

U.S. Bureau of Economic Analysis

CARES -Coronavirus Aid, Relief, and Economic Security

NPISH -Nonprofit institutions serving households

(L) Less than \$50,000.

1. Midquarter population estimates by state are derived by BEA. BEA produced intercensal quarterly statistics for the second quarter of 2010 through the first quarter of 2020 that are tied to the Census Bureau decennial counts for 2010 and 2020. BEA developed intercensal population statistics because this data was not published when Census released state population data for 2020-2021, which are based on the 2020 decennial counts. BEA

2. Per capita personal income is total personal income divided by total quarterly population estimates. BEA produced intercensal population figures for the second quarter of 2010 to the first quarter of 2020 that are tied to the Census Bureau decennial counts for 2010 and 2020 to create consistent time series that are used to prepare per capita personal income statistics. BEA used the [Census Bureau Das Gupta method](#), modified to account for

3. A two percent reduction in reimbursements paid to Medicare service providers that went into effect in 2013 was initially suspended by the CARES Act. The resulting increased reimbursement rates went into effect beginning on May 1, 2020.

4. Unemployment insurance benefits were expanded through several programs that were initially established through the CARES Act. For more information, refer to [How will the expansion of unemployment benefits in response to the COVID-19 pandemic be recorded in the NIPAs?](#)

5. The American Rescue Plan increased the Child Tax Credit to \$3,000 per child over the age of six and \$3,600 for children under the age of six, and raised the age limit from 16 to 17. It also authorized that up to half of these credits could be distributed through advance payments during the tax year, while the rest would be claimed when parents file tax returns the following year.

6. Economic impact payments, initially established by the CARES Act, provide direct payments to individuals. For more information, refer to [How are federal economic impact payments to support individuals during the COVID-19 pandemic recorded in the NIPAs?](#)

7. The Federal Emergency Management Agency (FEMA) was authorized to make payments from the Disaster Relief Fund to supplement wages lost as a result of the COVID-19 pandemic.

8. The Paycheck Protection Program, initially established by the CARES Act, provides forgivable loans to help small businesses and nonprofit institutions make payroll and cover other expenses. It also provides funding to reimburse private lending institutions for the costs of administering these loans. For more information, refer to [How does the Paycheck Protection Program impact the national income and product accounts \(NIPAs\)?](#)

9. The Department of Health and Human Services distributes money from the Provider Relief Fund to hospitals and health care providers on the front lines of the coronavirus response. This funding supports health care-related expenses or lost revenue attributable to COVID-19 and ensures uninsured Americans can get treatment for COVID-19. In the NIPAs, funds provided to nonprofit hospitals are recorded as social benefits.

10. The Coronavirus Food Assistance Program, initially established by the CARES Act, provides direct support to farmers and ranchers where prices and market supply chains have been impacted by the COVID-19 pandemic.

Data on this table will be superseded by updated estimates. Regional estimates were controlled to the update to the National accounts released [September 29, 2022](#).

U.S. Bureau of Economic Analysis

CARES -Coronavirus Aid, Relief, and Economic Security

NPISH -Nonprofit institutions serving households

(L) Less than \$50,000.

1. Midquarter population estimates by state are derived by BEA. BEA produced intercensal quarterly statistics for the second quarter of 2010 through the first quarter of 2020 that are tied to the Census Bureau decennial counts for 2010 and 2020. BEA developed intercensal population statistics because this data was not published when Census released state population data for 2020-2021, which are based on the 2020 decennial counts. BEA

2. Per capita personal income is total personal income divided by total quarterly population estimates. BEA produced intercensal population figures for the second quarter of 2010 to the first quarter of 2020 that are tied to the Census Bureau decennial counts for 2010 and 2020 to create consistent time series that are used to prepare per capita personal income statistics. BEA used the [Census Bureau Das Gupta method](#), modified to account for

3. A two percent reduction in reimbursements paid to Medicare service providers that went into effect in 2013 was initially suspended by the CARES Act. The resulting increased reimbursement rates went into effect beginning on May 1, 2020.

4. Unemployment insurance benefits were expanded through several programs that were initially established through the CARES Act. For more information, refer to [How will the expansion of unemployment benefits in response to the COVID-19 pandemic be recorded in the NIPAs?](#)

5. The American Rescue Plan increased the Child Tax Credit to \$3,000 per child over the age of six and \$3,600 for children under the age of six, and raised the age limit from 16 to 17. It also authorized that up to half of these credits could be distributed through advance payments during the tax year, while the rest would be claimed when parents file tax returns the following year.

6. Economic impact payments, initially established by the CARES Act, provide direct payments to individuals. For more information, refer to [How are federal economic impact payments to support individuals during the COVID-19 pandemic recorded in the NIPAs?](#)

7. The Federal Emergency Management Agency (FEMA) was authorized to make payments from the Disaster Relief Fund to supplement wages lost as a result of the COVID-19 pandemic.

8. The Paycheck Protection Program, initially established by the CARES Act, provides forgivable loans to help small businesses and nonprofit institutions make payroll and cover other expenses. It also provides funding to reimburse private lending institutions for the costs of administering these loans. For more information, refer to [How does the Paycheck Protection Program impact the national income and product accounts \(NIPAs\)?](#)

9. The Department of Health and Human Services distributes money from the Provider Relief Fund to hospitals and health care providers on the front lines of the coronavirus response. This funding supports health care-related expenses or lost revenue attributable to COVID-19 and ensures uninsured Americans can get treatment for COVID-19. In the NIPAs, funds provided to nonprofit hospitals are recorded as social benefits.

10. The Coronavirus Food Assistance Program, initially established by the CARES Act, provides direct support to farmers and ranchers where prices and market supply chains have been impacted by the COVID-19 pandemic.

Data on this table will be superseded by updated estimates. Regional estimates were controlled to the update to the National accounts released [September 29, 2022](#).

U.S. Bureau of Economic Analysis

CARES -Coronavirus Aid, Relief, and Economic Security

NPISH -Nonprofit institutions serving households

(L) Less than \$50,000.

1. Midquarter population estimates by state are derived by BEA. BEA produced intercensal quarterly statistics for the second quarter of 2010 through the first quarter of 2020 that are tied to the Census Bureau decennial counts for 2010 and 2020. BEA developed intercensal population statistics because this data was not published when Census released state population data for 2020-2021, which are based on the 2020 decennial counts. BEA

2. Per capita personal income is total personal income divided by total quarterly population estimates. BEA produced intercensal population figures for the second quarter of 2010 to the first quarter of 2020 that are tied to the Census Bureau decennial counts for 2010 and 2020 to create consistent time series that are used to prepare per capita personal income statistics. BEA used the [Census Bureau Das Gupta method](#), modified to account for

3. A two percent reduction in reimbursements paid to Medicare service providers that went into effect in 2013 was initially suspended by the CARES Act. The resulting increased reimbursement rates went into effect beginning on May 1, 2020.

4. Unemployment insurance benefits were expanded through several programs that were initially established through the CARES Act. For more information, refer to [How will the expansion of unemployment benefits in response to the COVID-19 pandemic be recorded in the NIPAs?](#)

5. The American Rescue Plan increased the Child Tax Credit to \$3,000 per child over the age of six and \$3,600 for children under the age of six, and raised the age limit from 16 to 17. It also authorized that up to half of these credits could be distributed through advance payments during the tax year, while the rest would be claimed when parents file tax returns the following year.

6. Economic impact payments, initially established by the CARES Act, provide direct payments to individuals. For more information, refer to [How are federal economic impact payments to support individuals during the COVID-19 pandemic recorded in the NIPAs?](#)

7. The Federal Emergency Management Agency (FEMA) was authorized to make payments from the Disaster Relief Fund to supplement wages lost as a result of the COVID-19 pandemic.

8. The Paycheck Protection Program, initially established by the CARES Act, provides forgivable loans to help small businesses and nonprofit institutions make payroll and cover other expenses. It also provides funding to reimburse private lending institutions for the costs of administering these loans. For more information, refer to [How does the Paycheck Protection Program impact the national income and product accounts \(NIPAs\)?](#)

9. The Department of Health and Human Services distributes money from the Provider Relief Fund to hospitals and health care providers on the front lines of the coronavirus response. This funding supports health care-related expenses or lost revenue attributable to COVID-19 and ensures uninsured Americans can get treatment for COVID-19. In the NIPAs, funds provided to nonprofit hospitals are recorded as social benefits.

10. The Coronavirus Food Assistance Program, initially established by the CARES Act, provides direct support to farmers and ranchers where prices and market supply chains have been impacted by the COVID-19 pandemic.

Data on this table will be superseded by updated estimates. Regional estimates were controlled to the update to the National accounts released [September 29, 2022](#).

CARES -Coronavirus Aid, Relief, and Economic Security

NPISH -Nonprofit institutions serving households

(L) Less than \$50,000.

1. Midquarter population estimates by state are derived by BEA. BEA produced intercensal quarterly statistics for the second quarter of 2010 through the first quarter of 2020 that are tied to the Census Bureau decennial counts for 2010 and 2020. BEA developed intercensal population statistics because this data was not published when Census released state population data for 2020-2021, which are based on the 2020 decennial counts. BEA

2. Per capita personal income is total personal income divided by total quarterly population estimates. BEA produced intercensal population figures for the second quarter of 2010 to the first quarter of 2020 that are tied to the Census Bureau decennial counts for 2010 and 2020 to create consistent time series that are used to prepare per capita personal income statistics. BEA used the [Census Bureau Das Gupta method](#), modified to account for

3. A two percent reduction in reimbursements paid to Medicare service providers that went into effect in 2013 was initially suspended by the CARES Act. The resulting increased reimbursement rates went into effect beginning on May 1, 2020.

4. Unemployment insurance benefits were expanded through several programs that were initially established through the CARES Act. For more information, refer to [How will the expansion of unemployment benefits in response to the COVID-19 pandemic be recorded in the NIPAs?](#)

5. The American Rescue Plan increased the Child Tax Credit to \$3,000 per child over the age of six and \$3,600 for children under the age of six, and raised the age limit from 16 to 17. It also authorized that up to half of these credits could be distributed through advance payments during the tax year, while the rest would be claimed when parents file tax returns the following year.

6. Economic impact payments, initially established by the CARES Act, provide direct payments to individuals. For more information, refer to [How are federal economic impact payments to support individuals during the COVID-19 pandemic recorded in the NIPAs?](#)

7. The Federal Emergency Management Agency (FEMA) was authorized to make payments from the Disaster Relief Fund to supplement wages lost as a result of the COVID-19 pandemic.

8. The Paycheck Protection Program, initially established by the CARES Act, provides forgivable loans to help small businesses and nonprofit institutions make payroll and cover other expenses. It also provides funding to reimburse private lending institutions for the costs of administering these loans. For more information, refer to [How does the Paycheck Protection Program impact the national income and product accounts \(NIPAs\)?](#)

9. The Department of Health and Human Services distributes money from the Provider Relief Fund to hospitals and health care providers on the front lines of the coronavirus response. This funding supports health care-related expenses or lost revenue attributable to COVID-19 and ensures uninsured Americans can get treatment for COVID-19. In the NIPAs, funds provided to nonprofit hospitals are recorded as social benefits.

10. The Coronavirus Food Assistance Program, initially established by the CARES Act, provides direct support to farmers and ranchers where prices and market supply chains have been impacted by the COVID-19 pandemic.

CARES - Coronavirus Aid, Relief, and Economic Security

NPISH - Nonprofit institutions serving households

- Midquarter population estimates by state are derived by BEA. BEA produced intercensal quarterly statistics for the second quarter of 2010 through the first quarter of 2020 that are tied to the Census Bureau decennial counts for 2010 and 2020. BEA developed intercensal population statistics because this data was not published when Census released state population data for 2020-2021, which are based on the 2020 decennial counts. BEA
- Per capita personal income is total personal income divided by total quarterly population estimates. BEA produced intercensal population figures for the second quarter of 2010 to the first quarter of 2020 that are tied to the Census Bureau decennial counts for 2010 and 2020 to create consistent time series that are used to prepare per capita personal income statistics. BEA used the [Census Bureau Das Gupta method](#), modified to account for
- A two percent reduction in reimbursements paid to Medicare service providers that went into effect in 2013 was initially suspended by the CARES Act. The resulting increased reimbursement rates went into effect beginning on May 1, 2020.
- Unemployment insurance benefits were expanded through several programs that were initially established through the CARES Act. For more information, refer to [How will the expansion of unemployment benefits in response to the COVID-19 pandemic be recorded in the NIPAs?](#)
- The American Rescue Plan increased the Child Tax Credit to \$3,000 per child over the age of six and \$3,600 for children under the age of six, and raised the age limit from 16 to 17. It also authorized that up to half of these credits could be distributed through advance payments during the tax year, while the rest would be claimed when parents file tax returns the following year.
- Economic impact payments, initially established by the CARES Act, provide direct payments to individuals. For more information, refer to [How are federal economic impact payments to support individuals during the COVID-19 pandemic recorded in the NIPAs?](#)
- The Federal Emergency Management Agency (FEMA) was authorized to make payments from the Disaster Relief Fund to supplement wages lost as a result of the COVID-19 pandemic.
- The Paycheck Protection Program, initially established by the CARES Act, provides forgivable loans to help small businesses and nonprofit institutions make payroll and cover other expenses. It also provides funding to reimburse private lending institutions for the costs of administering these loans. For more information, refer to [How does the Paycheck Protection Program impact the national income and product accounts \(NIPAs\)?](#)
- The Department of Health and Human Services distributes money from the Provider Relief Fund to hospitals and health care providers on the front lines of the coronavirus response. This funding supports health care-related expenses or lost revenue attributable to COVID-19 and ensures uninsured Americans can get treatment for COVID-19. In the NIPAs, funds provided to nonprofit hospitals are recorded as social benefits.
- The Coronavirus Food Assistance Program, initially established by the CARES Act, provides direct support to farmers and ranchers where prices and market supply chains have been impacted by the COVID-19 pandemic.

Data on this table will be superseded by updated estimates. Regional estimates were controlled to the update to the National accounts released [September 29, 2022](#).

CARES -Coronavirus Aid, Relief, and Economic Security

NPISH -Nonprofit institutions serving households

(L) Less than \$50,000.

1. Midquarter population estimates by state are derived by BEA. BEA produced intercensal quarterly statistics for the second quarter of 2010 through the first quarter of 2020 that are tied to the Census Bureau decennial counts for 2010 and 2020. BEA developed intercensal population statistics because this data was not published when Census released state population data for 2020-2021, which are based on the 2020 decennial counts. BEA

2. Per capita personal income is total personal income divided by total quarterly population estimates. BEA produced intercensal population figures for the second quarter of 2010 to the first quarter of 2020 that are tied to the Census Bureau decennial counts for 2010 and 2020 to create consistent time series that are used to prepare per capita personal income statistics. BEA used the [Census Bureau Das Gupta method](#), modified to account for

3. A two percent reduction in reimbursements paid to Medicare service providers that went into effect in 2013 was initially suspended by the CARES Act. The resulting increased reimbursement rates went into effect beginning on May 1, 2020.

4. Unemployment insurance benefits were expanded through several programs that were initially established through the CARES Act. For more information, refer to [How will the expansion of unemployment benefits in response to the COVID-19 pandemic be recorded in the NIPAs?](#)

5. The American Rescue Plan increased the Child Tax Credit to \$3,000 per child over the age of six and \$3,600 for children under the age of six, and raised the age limit from 16 to 17. It also authorized that up to half of these credits could be distributed through advance payments during the tax year, while the rest would be claimed when parents file tax returns the following year.

6. Economic impact payments, initially established by the CARES Act, provide direct payments to individuals. For more information, refer to [How are federal economic impact payments to support individuals during the COVID-19 pandemic recorded in the NIPAs?](#)

7. The Federal Emergency Management Agency (FEMA) was authorized to make payments from the Disaster Relief Fund to supplement wages lost as a result of the COVID-19 pandemic.

8. The Paycheck Protection Program, initially established by the CARES Act, provides forgivable loans to help small businesses and nonprofit institutions make payroll and cover other expenses. It also provides funding to reimburse private lending institutions for the costs of administering these loans. For more information, refer to [How does the Paycheck Protection Program impact the national income and product accounts \(NIPAs\)?](#)

9. The Department of Health and Human Services distributes money from the Provider Relief Fund to hospitals and health care providers on the front lines of the coronavirus response. This funding supports health care-related expenses or lost revenue attributable to COVID-19 and ensures uninsured Americans can get treatment for COVID-19. In the NIPAs, funds provided to nonprofit hospitals are recorded as social benefits.

10. The Coronavirus Food Assistance Program, initially established by the CARES Act, provides direct support to farmers and ranchers where prices and market supply chains have been impacted by the COVID-19 pandemic.

Data on this table will be superseded by updated estimates. Regional estimates were controlled to the update to the National accounts released [September 29, 2022](#).

CARES -Coronavirus Aid, Relief, and Economic Security

NPISH -Nonprofit institutions serving households

(L) Less than \$50,000.

1. Midquarter population estimates by state are derived by BEA. BEA produced intercensal quarterly statistics for the second quarter of 2010 through the first quarter of 2020 that are tied to the Census Bureau decennial counts for 2010 and 2020. BEA developed intercensal population statistics because this data was not published when Census released state population data for 2020-2021, which are based on the 2020 decennial counts. BEA

2. Per capita personal income is total personal income divided by total quarterly population estimates. BEA produced intercensal population figures for the second quarter of 2010 to the first quarter of 2020 that are tied to the Census Bureau decennial counts for 2010 and 2020 to create consistent time series that are used to prepare per capita personal income statistics. BEA used the [Census Bureau Das Gupta method](#), modified to account for

3. A two percent reduction in reimbursements paid to Medicare service providers that went into effect in 2013 was initially suspended by the CARES Act. The resulting increased reimbursement rates went into effect beginning on May 1, 2020.

4. Unemployment insurance benefits were expanded through several programs that were initially established through the CARES Act. For more information, refer to [How will the expansion of unemployment benefits in response to the COVID-19 pandemic be recorded in the NIPAs?](#)

5. The American Rescue Plan increased the Child Tax Credit to \$3,000 per child over the age of six and \$3,600 for children under the age of six, and raised the age limit from 16 to 17. It also authorized that up to half of these credits could be distributed through advance payments during the tax year, while the rest would be claimed when parents file tax returns the following year.

6. Economic impact payments, initially established by the CARES Act, provide direct payments to individuals. For more information, refer to [How are federal economic impact payments to support individuals during the COVID-19 pandemic recorded in the NIPAs?](#)

7. The Federal Emergency Management Agency (FEMA) was authorized to make payments from the Disaster Relief Fund to supplement wages lost as a result of the COVID-19 pandemic.

8. The Paycheck Protection Program, initially established by the CARES Act, provides forgivable loans to help small businesses and nonprofit institutions make payroll and cover other expenses. It also provides funding to reimburse private lending institutions for the costs of administering these loans. For more information, refer to [How does the Paycheck Protection Program impact the national income and product accounts \(NIPAs\)?](#)

9. The Department of Health and Human Services distributes money from the Provider Relief Fund to hospitals and health care providers on the front lines of the coronavirus response. This funding supports health care-related expenses or lost revenue attributable to COVID-19 and ensures uninsured Americans can get treatment for COVID-19. In the NIPAs, funds provided to nonprofit hospitals are recorded as social benefits.

10. The Coronavirus Food Assistance Program, initially established by the CARES Act, provides direct support to farmers and ranchers where prices and market supply chains have been impacted by the COVID-19 pandemic.

Data on this table will be superseded by updated estimates. Regional estimates were controlled to the update to the National accounts released [September 29, 2022](#).

U.S. Bureau of Economic Analysis

CARES -Coronavirus Aid, Relief, and Economic Security

NPISH -Nonprofit institutions serving households

(L) Less than \$50,000.

1. Midquarter population estimates by state are derived by BEA. BEA produced intercensal quarterly statistics for the second quarter of 2010 through the first quarter of 2020 that are tied to the Census Bureau decennial counts for 2010 and 2020. BEA developed intercensal population statistics because this data was not published when Census released state population data for 2020-2021, which are based on the 2020 decennial counts. BEA

2. Per capita personal income is total personal income divided by total quarterly population estimates. BEA produced intercensal population figures for the second quarter of 2010 to the first quarter of 2020 that are tied to the Census Bureau decennial counts for 2010 and 2020 to create consistent time series that are used to prepare per capita personal income statistics. BEA used the [Census Bureau Das Gupta method](#), modified to account for

3. A two percent reduction in reimbursements paid to Medicare service providers that went into effect in 2013 was initially suspended by the CARES Act. The resulting increased reimbursement rates went into effect beginning on May 1, 2020.

4. Unemployment insurance benefits were expanded through several programs that were initially established through the CARES Act. For more information, refer to [How will the expansion of unemployment benefits in response to the COVID-19 pandemic be recorded in the NIPAs?](#)

5. The American Rescue Plan increased the Child Tax Credit to \$3,000 per child over the age of six and \$3,600 for children under the age of six, and raised the age limit from 16 to 17. It also authorized that up to half of these credits could be distributed through advance payments during the tax year, while the rest would be claimed when parents file tax returns the following year.

6. Economic impact payments, initially established by the CARES Act, provide direct payments to individuals. For more information, refer to [How are federal economic impact payments to support individuals during the COVID-19 pandemic recorded in the NIPAs?](#)

7. The Federal Emergency Management Agency (FEMA) was authorized to make payments from the Disaster Relief Fund to supplement wages lost as a result of the COVID-19 pandemic.

8. The Paycheck Protection Program, initially established by the CARES Act, provides forgivable loans to help small businesses and nonprofit institutions make payroll and cover other expenses. It also provides funding to reimburse private lending institutions for the costs of administering these loans. For more information, refer to [How does the Paycheck Protection Program impact the national income and product accounts \(NIPAs\)?](#)

9. The Department of Health and Human Services distributes money from the Provider Relief Fund to hospitals and health care providers on the front lines of the coronavirus response. This funding supports health care-related expenses or lost revenue attributable to COVID-19 and ensures uninsured Americans can get treatment for COVID-19. In the NIPAs, funds provided to nonprofit hospitals are recorded as social benefits.

10. The Coronavirus Food Assistance Program, initially established by the CARES Act, provides direct support to farmers and ranchers where prices and market supply chains have been impacted by the COVID-19 pandemic.

Data on this table will be superseded by updated estimates. Regional estimates were controlled to the update to the National accounts released [September 29, 2022](#).

CARES -Coronavirus Aid, Relief, and Economic Security

NPISH -Nonprofit institutions serving households

(L) Less than \$50,000.

1. Midquarter population estimates by state are derived by BEA. BEA produced intercensal quarterly statistics for the second quarter of 2010 through the first quarter of 2020 that are tied to the Census Bureau decennial counts for 2010 and 2020. BEA developed intercensal population statistics because this data was not published when Census released state population data for 2020-2021, which are based on the 2020 decennial counts. BEA

2. Per capita personal income is total personal income divided by total quarterly population estimates. BEA produced intercensal population figures for the second quarter of 2010 to the first quarter of 2020 that are tied to the Census Bureau decennial counts for 2010 and 2020 to create consistent time series that are used to prepare per capita personal income statistics. BEA used the [Census Bureau Das Gupta method](#), modified to account for

3. A two percent reduction in reimbursements paid to Medicare service providers that went into effect in 2013 was initially suspended by the CARES Act. The resulting increased reimbursement rates went into effect beginning on May 1, 2020.

4. Unemployment insurance benefits were expanded through several programs that were initially established through the CARES Act. For more information, refer to [How will the expansion of unemployment benefits in response to the COVID-19 pandemic be recorded in the NIPAs?](#)

5. The American Rescue Plan increased the Child Tax Credit to \$3,000 per child over the age of six and \$3,600 for children under the age of six, and raised the age limit from 16 to 17. It also authorized that up to half of these credits could be distributed through advance payments during the tax year, while the rest would be claimed when parents file tax returns the following year.

6. Economic impact payments, initially established by the CARES Act, provide direct payments to individuals. For more information, refer to [How are federal economic impact payments to support individuals during the COVID-19 pandemic recorded in the NIPAs?](#)

7. The Federal Emergency Management Agency (FEMA) was authorized to make payments from the Disaster Relief Fund to supplement wages lost as a result of the COVID-19 pandemic.

8. The Paycheck Protection Program, initially established by the CARES Act, provides forgivable loans to help small businesses and nonprofit institutions make payroll and cover other expenses. It also provides funding to reimburse private lending institutions for the costs of administering these loans. For more information, refer to [How does the Paycheck Protection Program impact the national income and product accounts \(NIPAs\)?](#)

9. The Department of Health and Human Services distributes money from the Provider Relief Fund to hospitals and health care providers on the front lines of the coronavirus response. This funding supports health care-related expenses or lost revenue attributable to COVID-19 and ensures uninsured Americans can get treatment for COVID-19. In the NIPAs, funds provided to nonprofit hospitals are recorded as social benefits.

10. The Coronavirus Food Assistance Program, initially established by the CARES Act, provides direct support to farmers and ranchers where prices and market supply chains have been impacted by the COVID-19 pandemic.

Data on this table will be superseded by updated estimates. Regional estimates were controlled to the update to the National accounts released [September 29, 2022](#).

3. A two percent reduction in reimbursements paid to Medicare service providers that went into effect in 2013 was initially suspended by the CARES Act. The resulting increased reimbursement rates went into effect beginning on May 1, 2020.

4. Unemployment insurance benefits were expanded through several programs that were initially established through the CARES Act. For more information, refer to [How will the expansion of unemployment benefits in response to the COVID-19 pandemic be recorded in the NIPAs?](#)

5. The American Rescue Plan increased the Child Tax Credit to \$3,000 per child over the age of six and \$3,600 for children under the age of six, and raised the age limit from 16 to 17. It also authorized that up to half of these credits could be distributed through advance payments during the tax year, while the rest would be claimed when parents file tax returns the following year.

6. Economic impact payments, initially established by the CARES Act, provide direct payments to individuals. For more information, refer to [How are federal economic impact payments to support individuals during the COVID-19 pandemic recorded in the NIPAs?](#)

7. The Federal Emergency Management Agency (FEMA) was authorized to make payments from the Disaster Relief Fund to supplement wages lost as a result of the COVID-19 pandemic.

8. The Paycheck Protection Program, initially established by the CARES Act, provides forgivable loans to help small businesses and nonprofit institutions make payroll and cover other expenses. It also provides funding to reimburse private lending institutions for the costs of administering these loans. For more information, refer to [How does the Paycheck Protection Program impact the national income and product accounts \(NIPAs\)?](#)

9. The Department of Health and Human Services distributes money from the Provider Relief Fund to hospitals and health care providers on the front lines of the coronavirus response. This funding supports health care-related expenses or lost revenue attributable to COVID-19 and ensures uninsured Americans can get treatment for COVID-19. In the NIPAs, funds provided to nonprofit hospitals are recorded as social benefits.

10. The Coronavirus Food Assistance Program, initially established by the CARES Act, provides direct support to farmers and ranchers where prices and market supply chains have been impacted by the COVID-19 pandemic.

Data on this table will be superseded by updated estimates. Regional estimates were controlled to the update to the National accounts released [September 29, 2022](#).

CARES -Coronavirus Aid, Relief, and Economic Security

NPISH -Nonprofit institutions serving households

(L) Less than \$50,000.

1. Midquarter population estimates by state are derived by BEA. BEA produced intercensal quarterly statistics for the second quarter of 2010 through the first quarter of 2020 that are tied to the Census Bureau decennial counts for 2010 and 2020. BEA developed intercensal population statistics because this data was not published when Census released state population data for 2020-2021, which are based on the 2020 decennial counts. BEA

2. Per capita personal income is total personal income divided by total quarterly population estimates. BEA produced intercensal population figures for the second quarter of 2010 to the first quarter of 2020 that are tied to the Census Bureau decennial counts for 2010 and 2020 to create consistent time series that are used to prepare per capita personal income statistics. BEA used the [Census Bureau Das Gupta method](#), modified to account for

3. A two percent reduction in reimbursements paid to Medicare service providers that went into effect in 2013 was initially suspended by the CARES Act. The resulting increased reimbursement rates went into effect beginning on May 1, 2020.

4. Unemployment insurance benefits were expanded through several programs that were initially established through the CARES Act. For more information, refer to [How will the expansion of unemployment benefits in response to the COVID-19 pandemic be recorded in the NIPAs?](#)

5. The American Rescue Plan increased the Child Tax Credit to \$3,000 per child over the age of six and \$3,600 for children under the age of six, and raised the age limit from 16 to 17. It also authorized that up to half of these credits could be distributed through advance payments during the tax year, while the rest would be claimed when parents file tax returns the following year.

6. Economic impact payments, initially established by the CARES Act, provide direct payments to individuals. For more information, refer to [How are federal economic impact payments to support individuals during the COVID-19 pandemic recorded in the NIPAs?](#)

7. The Federal Emergency Management Agency (FEMA) was authorized to make payments from the Disaster Relief Fund to supplement wages lost as a result of the COVID-19 pandemic.

8. The Paycheck Protection Program, initially established by the CARES Act, provides forgivable loans to help small businesses and nonprofit institutions make payroll and cover other expenses. It also provides funding to reimburse private lending institutions for the costs of administering these loans. For more information, refer to [How does the Paycheck Protection Program impact the national income and product accounts \(NIPAs\)?](#)

9. The Department of Health and Human Services distributes money from the Provider Relief Fund to hospitals and health care providers on the front lines of the coronavirus response. This funding supports health care-related expenses or lost revenue attributable to COVID-19 and ensures uninsured Americans can get treatment for COVID-19. In the NIPAs, funds provided to nonprofit hospitals are recorded as social benefits.

10. The Coronavirus Food Assistance Program, initially established by the CARES Act, provides direct support to farmers and ranchers where prices and market supply chains have been impacted by the COVID-19 pandemic.

Data on this table will be superseded by updated estimates. Regional estimates were controlled to the update to the National accounts released [September 29, 2022](#).

CARES -Coronavirus Aid, Relief, and Economic Security

NPISH -Nonprofit institutions serving households

(L) Less than \$50,000.

1. Midquarter population estimates by state are derived by BEA. BEA produced intercensal quarterly statistics for the second quarter of 2010 through the first quarter of 2020 that are tied to the Census Bureau decennial counts for 2010 and 2020. BEA developed intercensal population statistics because this data was not published when Census released state population data for 2020-2021, which are based on the 2020 decennial counts. BEA

2. Per capita personal income is total personal income divided by total quarterly population estimates. BEA produced intercensal population figures for the second quarter of 2010 to the first quarter of 2020 that are tied to the Census Bureau decennial counts for 2010 and 2020 to create consistent time series that are used to prepare per capita personal income statistics. BEA used the [Census Bureau Das Gupta method](#), modified to account for

3. A two percent reduction in reimbursements paid to Medicare service providers that went into effect in 2013 was initially suspended by the CARES Act. The resulting increased reimbursement rates went into effect beginning on May 1, 2020.

4. Unemployment insurance benefits were expanded through several programs that were initially established through the CARES Act. For more information, refer to [How will the expansion of unemployment benefits in response to the COVID-19 pandemic be recorded in the NIPAs?](#)

5. The American Rescue Plan increased the Child Tax Credit to \$3,000 per child over the age of six and \$3,600 for children under the age of six, and raised the age limit from 16 to 17. It also authorized that up to half of these credits could be distributed through advance payments during the tax year, while the rest would be claimed when parents file tax returns the following year.

6. Economic impact payments, initially established by the CARES Act, provide direct payments to individuals. For more information, refer to [How are federal economic impact payments to support individuals during the COVID-19 pandemic recorded in the NIPAs?](#)

7. The Federal Emergency Management Agency (FEMA) was authorized to make payments from the Disaster Relief Fund to supplement wages lost as a result of the COVID-19 pandemic.

8. The Paycheck Protection Program, initially established by the CARES Act, provides forgivable loans to help small businesses and nonprofit institutions make payroll and cover other expenses. It also provides funding to reimburse private lending institutions for the costs of administering these loans. For more information, refer to [How does the Paycheck Protection Program impact the national income and product accounts \(NIPAs\)?](#)

9. The Department of Health and Human Services distributes money from the Provider Relief Fund to hospitals and health care providers on the front lines of the coronavirus response. This funding supports health care-related expenses or lost revenue attributable to COVID-19 and ensures uninsured Americans can get treatment for COVID-19. In the NIPAs, funds provided to nonprofit hospitals are recorded as social benefits.

10. The Coronavirus Food Assistance Program, initially established by the CARES Act, provides direct support to farmers and ranchers where prices and market supply chains have been impacted by the COVID-19 pandemic.

Data on this table will be superseded by updated estimates. Regional estimates were controlled to the update to the National accounts released [September 29, 2022](#).

U.S. Bureau of Economic Analysis

CARES - Coronavirus Aid, Relief, and Economic Security

NPISH - Nonprofit institutions serving households

- Midquarter population estimates by state are derived by BEA. BEA produced intercensal quarterly statistics for the second quarter of 2010 through the first quarter of 2020 that are tied to the Census Bureau decennial counts for 2010 and 2020. BEA developed intercensal population statistics because this data was not published when Census released state population data for 2020-2021, which are based on the 2020 decennial counts. BEA
- Per capita personal income is total personal income divided by total quarterly population estimates. BEA produced intercensal population figures for the second quarter of 2010 to the first quarter of 2020 that are tied to the Census Bureau decennial counts for 2010 and 2020 to create consistent time series that are used to prepare per capita personal income statistics. BEA used the [Census Bureau Das Gupta method](#), modified to account for
- A two percent reduction in reimbursements paid to Medicare service providers that went into effect in 2013 was initially suspended by the CARES Act. The resulting increased reimbursement rates went into effect beginning on May 1, 2020.
- Unemployment insurance benefits were expanded through several programs that were initially established through the CARES Act. For more information, refer to [How will the expansion of unemployment benefits in response to the COVID-19 pandemic be recorded in the NIPAs?](#)
- The American Rescue Plan increased the Child Tax Credit to \$3,000 per child over the age of six and \$3,600 for children under the age of six, and raised the age limit from 16 to 17. It also authorized that up to half of these credits could be distributed through advance payments during the tax year, while the rest would be claimed when parents file tax returns the following year.
- Economic impact payments, initially established by the CARES Act, provide direct payments to individuals. For more information, refer to [How are federal economic impact payments to support individuals during the COVID-19 pandemic recorded in the NIPAs?](#)
- The Federal Emergency Management Agency (FEMA) was authorized to make payments from the Disaster Relief Fund to supplement wages lost as a result of the COVID-19 pandemic.
- The Paycheck Protection Program, initially established by the CARES Act, provides forgivable loans to help small businesses and nonprofit institutions make payroll and cover other expenses. It also provides funding to reimburse private lending institutions for the costs of administering these loans. For more information, refer to [How does the Paycheck Protection Program impact the national income and product accounts \(NIPAs\)?](#)
- The Department of Health and Human Services distributes money from the Provider Relief Fund to hospitals and health care providers on the front lines of the coronavirus response. This funding supports health care-related expenses or lost revenue attributable to COVID-19 and ensures uninsured Americans can get treatment for COVID-19. In the NIPAs, funds provided to nonprofit hospitals are recorded as social benefits.
- The Coronavirus Food Assistance Program, initially established by the CARES Act, provides direct support to farmers and ranchers where prices and market supply chains have been impacted by the COVID-19 pandemic.

Data on this table will be superseded by updated estimates. Regional estimates were controlled to the update to the National accounts released [September 29, 2022](#).

U.S. Bureau of Economic Analysis

CARES -Coronavirus Aid, Relief, and Economic Security

NPISH -Nonprofit institutions serving households

(L) Less than \$50,000.

1. Midquarter population estimates by state are derived by BEA. BEA produced intercensal quarterly statistics for the second quarter of 2010 through the first quarter of 2020 that are tied to the Census Bureau decennial counts for 2010 and 2020. BEA developed intercensal population statistics because this data was not published when Census released state population data for 2020-2021, which are based on the 2020 decennial counts. BEA

2. Per capita personal income is total personal income divided by total quarterly population estimates. BEA produced intercensal population figures for the second quarter of 2010 to the first quarter of 2020 that are tied to the Census Bureau decennial counts for 2010 and 2020 to create consistent time series that are used to prepare per capita personal income statistics. BEA used the [Census Bureau Das Gupta method](#), modified to account for

3. A two percent reduction in reimbursements paid to Medicare service providers that went into effect in 2013 was initially suspended by the CARES Act. The resulting increased reimbursement rates went into effect beginning on May 1, 2020.

4. Unemployment insurance benefits were expanded through several programs that were initially established through the CARES Act. For more information, refer to [How will the expansion of unemployment benefits in response to the COVID-19 pandemic be recorded in the NIPAs?](#)

5. The American Rescue Plan increased the Child Tax Credit to \$3,000 per child over the age of six and \$3,600 for children under the age of six, and raised the age limit from 16 to 17. It also authorized that up to half of these credits could be distributed through advance payments during the tax year, while the rest would be claimed when parents file tax returns the following year.

6. Economic impact payments, initially established by the CARES Act, provide direct payments to individuals. For more information, refer to [How are federal economic impact payments to support individuals during the COVID-19 pandemic recorded in the NIPAs?](#)

7. The Federal Emergency Management Agency (FEMA) was authorized to make payments from the Disaster Relief Fund to supplement wages lost as a result of the COVID-19 pandemic.

8. The Paycheck Protection Program, initially established by the CARES Act, provides forgivable loans to help small businesses and nonprofit institutions make payroll and cover other expenses. It also provides funding to reimburse private lending institutions for the costs of administering these loans. For more information, refer to [How does the Paycheck Protection Program impact the national income and product accounts \(NIPAs\)?](#)

9. The Department of Health and Human Services distributes money from the Provider Relief Fund to hospitals and health care providers on the front lines of the coronavirus response. This funding supports health care-related expenses or lost revenue attributable to COVID-19 and ensures uninsured Americans can get treatment for COVID-19. In the NIPAs, funds provided to nonprofit hospitals are recorded as social benefits.

10. The Coronavirus Food Assistance Program, initially established by the CARES Act, provides direct support to farmers and ranchers where prices and market supply chains have been impacted by the COVID-19 pandemic.

Data on this table will be superseded by updated estimates. Regional estimates were controlled to the update to the National accounts released [September 29, 2022](#).

U.S. Bureau of Economic Analysis

CARES -Coronavirus Aid, Relief, and Economic Security

NPISH -Nonprofit institutions serving households

(L) Less than \$50,000.

1. Midquarter population estimates by state are derived by BEA. BEA produced intercensal quarterly statistics for the second quarter of 2010 through the first quarter of 2020 that are tied to the Census Bureau decennial counts for 2010 and 2020. BEA developed intercensal population statistics because this data was not published when Census released state population data for 2020-2021, which are based on the 2020 decennial counts. BEA

2. Per capita personal income is total personal income divided by total quarterly population estimates. BEA produced intercensal population figures for the second quarter of 2010 to the first quarter of 2020 that are tied to the Census Bureau decennial counts for 2010 and 2020 to create consistent time series that are used to prepare per capita personal income statistics. BEA used the [Census Bureau Das Gupta method](#), modified to account for

3. A two percent reduction in reimbursements paid to Medicare service providers that went into effect in 2013 was initially suspended by the CARES Act. The resulting increased reimbursement rates went into effect beginning on May 1, 2020.

4. Unemployment insurance benefits were expanded through several programs that were initially established through the CARES Act. For more information, refer to [How will the expansion of unemployment benefits in response to the COVID-19 pandemic be recorded in the NIPAs?](#)

5. The American Rescue Plan increased the Child Tax Credit to \$3,000 per child over the age of six and \$3,600 for children under the age of six, and raised the age limit from 16 to 17. It also authorized that up to half of these credits could be distributed through advance payments during the tax year, while the rest would be claimed when parents file tax returns the following year.

6. Economic impact payments, initially established by the CARES Act, provide direct payments to individuals. For more information, refer to

- A two percent reduction in reimbursements paid to Medicare service providers that went into effect in 2013 was initially suspended by the CARES Act. The resulting increased reimbursement rates went into effect beginning on May 1, 2020.
- Unemployment insurance benefits were expanded through several programs that were initially established through the CARES Act. For more information, refer to [How will the expansion of unemployment benefits in response to the COVID-19 pandemic be recorded in the NIPAs?](#)
- The American Rescue Plan increased the Child Tax Credit to \$3,000 per child over the age of six and \$3,600 for children under the age of six, and raised the age limit from 16 to 17. It also authorized that up to half of these credits could be distributed through advance payments during the tax year, while the rest would be claimed when parents file tax returns the following year.
- Economic impact payments, initially established by the CARES Act, provide direct payments to individuals. For more information, refer to [How are federal economic impact payments to support individuals during the COVID-19 pandemic recorded in the NIPAs?](#)
- The Federal Emergency Management Agency (FEMA) was authorized to make payments from the Disaster Relief Fund to supplement wages lost as a result of the COVID-19 pandemic.
- The Paycheck Protection Program, initially established by the CARES Act, provides forgivable loans to help small businesses and nonprofit institutions make payroll and cover other expenses. It also provides funding to reimburse private lending institutions for the costs of administering these loans. For more information, refer to [How does the Paycheck Protection Program impact the national income and product accounts \(NIPAs\)?](#)
- The Department of Health and Human Services distributes money from the Provider Relief Fund to hospitals and health care providers on the front lines of the coronavirus response. This funding supports health care-related expenses or lost revenue attributable to COVID-19 and ensures uninsured Americans can get treatment for COVID-19. In the NIPAs, funds provided to nonprofit hospitals are recorded as social benefits.
- The Coronavirus Food Assistance Program, initially established by the CARES Act, provides direct support to farmers and ranchers where prices and market supply chains have been impacted by the COVID-19 pandemic.

Data on this table will be superseded by updated estimates. Regional estimates were controlled to the update to the National accounts released [September 29, 2022](#).

CARES -Coronavirus Aid, Relief, and Economic Security

NPISH -Nonprofit institutions serving households

(L) Less than \$50,000.

1. Midquarter population estimates by state are derived by BEA. BEA produced intercensal quarterly statistics for the second quarter of 2010 through the first quarter of 2020 that are tied to the Census Bureau decennial counts for 2010 and 2020. BEA developed intercensal population statistics because this data was not published when Census released state population data for 2020-2021, which are based on the 2020 decennial counts. BEA
2. Per capita personal income is total personal income divided by total quarterly population estimates. BEA produced intercensal population figures for the second quarter of 2010 to the first quarter of 2020 that are tied to the Census Bureau decennial counts for 2010 and 2020 to create consistent time series that are used to prepare per capita personal income statistics. BEA used the [Census Bureau Das Gupta method](#), modified to account for
3. A two percent reduction in reimbursements paid to Medicare service providers that went into effect in 2013 was initially suspended by the CARES Act. The resulting increased reimbursement rates went into effect beginning on May 1, 2020.
4. Unemployment insurance benefits were expanded through several programs that were initially established through the CARES Act. For more information, refer to [How will the expansion of unemployment benefits in response to the COVID-19 pandemic be recorded in the NIPAs?](#)
5. The American Rescue Plan increased the Child Tax Credit to \$3,000 per child over the age of six and \$3,600 for children under the age of six, and raised the age limit from 16 to 17. It also authorized that up to half of these credits could be distributed through advance payments during the tax year, while the rest would be claimed when parents file tax returns the following year.
6. Economic impact payments, initially established by the CARES Act, provide direct payments to individuals. For more information, refer to [How are federal economic impact payments to support individuals during the COVID-19 pandemic recorded in the NIPAs?](#)
7. The Federal Emergency Management Agency (FEMA) was authorized to make payments from the Disaster Relief Fund to supplement wages lost as a result of the COVID-19 pandemic.
8. The Paycheck Protection Program, initially established by the CARES Act, provides forgivable loans to help small businesses and nonprofit institutions make payroll and cover other expenses. It also provides funding to reimburse private lending institutions for the costs of administering these loans. For more information, refer to [How does the Paycheck Protection Program impact the national income and product accounts \(NIPAs\)?](#)
9. The Department of Health and Human Services distributes money from the Provider Relief Fund to hospitals and health care providers on the front lines of the coronavirus response. This funding supports health care-related expenses or lost revenue attributable to COVID-19 and ensures uninsured Americans can get treatment for COVID-19. In the NIPAs, funds provided to nonprofit hospitals are recorded as social benefits.
10. The Coronavirus Food Assistance Program, initially established by the CARES Act, provides direct support to farmers and ranchers where prices and market supply chains have been impacted by the COVID-19 pandemic.

CARES -Coronavirus Aid, Relief, and Economic Security

NPISH -Nonprofit institutions serving households

(L) Less than \$50,000.

1. Midquarter population estimates by state are derived by BEA. BEA produced intercensal quarterly statistics for the second quarter of 2010 through the first quarter of 2020 that are tied to the Census Bureau decennial counts for 2010 and 2020. BEA developed intercensal population statistics because this data was not published when Census released state population data for 2020-2021, which are based on the 2020 decennial counts. BEA

2. Per capita personal income is total personal income divided by total quarterly population estimates. BEA produced intercensal population figures for the second quarter of 2010 to the first quarter of 2020 that are tied to the Census Bureau decennial counts for 2010 and 2020 to create consistent time series that are used to prepare per capita personal income statistics. BEA used the [Census Bureau Das Gupta method](#), modified to account for

3. A two percent reduction in reimbursements paid to Medicare service providers that went into effect in 2013 was initially suspended by the CARES Act. The resulting increased reimbursement rates went into effect beginning on May 1, 2020.

4. Unemployment insurance benefits were expanded through several programs that were initially established through the CARES Act. For more information, refer to [How will the expansion of unemployment benefits in response to the COVID-19 pandemic be recorded in the NIPAs?](#)

5. The American Rescue Plan increased the Child Tax Credit to \$3,000 per child over the age of six and \$3,600 for children under the age of six, and raised the age limit from 16 to 17. It also authorized that up to half of these credits could be distributed through advance payments during the tax year, while the rest would be claimed when parents file tax returns the following year.

6. Economic impact payments, initially established by the CARES Act, provide direct payments to individuals. For more information, refer to [How are federal economic impact payments to support individuals during the COVID-19 pandemic recorded in the NIPAs?](#)

7. The Federal Emergency Management Agency (FEMA) was authorized to make payments from the Disaster Relief Fund to supplement wages lost as a result of the COVID-19 pandemic.

8. The Paycheck Protection Program, initially established by the CARES Act, provides forgivable loans to help small businesses and nonprofit institutions make payroll and cover other expenses. It also provides funding to reimburse private lending institutions for the costs of administering these loans. For more information, refer to [How does the Paycheck Protection Program impact the national income and product accounts \(NIPAs\)?](#)

9. The Department of Health and Human Services distributes money from the Provider Relief Fund to hospitals and health care providers on the front lines of the coronavirus response. This funding supports health care-related expenses or lost revenue attributable to COVID-19 and ensures uninsured Americans can get treatment for COVID-19. In the NIPAs, funds provided to nonprofit hospitals are

CARES -Coronavirus Aid, Relief, and Economic Security

NPISH -Nonprofit institutions serving households

(L) Less than \$50,000.

1. Midquarter population estimates by state are derived by BEA. BEA produced intercensal quarterly statistics for the second quarter of 2010 through the first quarter of 2020 that are tied to the Census Bureau decennial counts for 2010 and 2020. BEA developed intercensal population statistics because this data was not published when Census released state population data for 2020-2021, which are based on the 2020 decennial counts. BEA

2. Per capita personal income is total personal income divided by total quarterly population estimates. BEA produced intercensal population figures for the second quarter of 2010 to the first quarter of 2020 that are tied to the Census Bureau decennial counts for 2010 and 2020 to create consistent time series that are used to prepare per capita personal income statistics. BEA used the [Census Bureau Das Gupta method](#), modified to account for

3. A two percent reduction in reimbursements paid to Medicare service providers that went into effect in 2013 was initially suspended by the CARES Act. The resulting increased reimbursement rates went into effect beginning on May 1, 2020.

4. Unemployment insurance benefits were expanded through several programs that were initially established through the CARES Act. For more information, refer to [How will the expansion of unemployment benefits in response to the COVID-19 pandemic be recorded in the NIPAs?](#)

5. The American Rescue Plan increased the Child Tax Credit to \$3,000 per child over the age of six and \$3,600 for children under the age of six, and raised the age limit from 16 to 17. It also authorized that up to half of these credits could be distributed through advance payments during the tax year, while the rest would be claimed when parents file tax returns the following year.

6. Economic impact payments, initially established by the CARES Act, provide direct payments to individuals. For more information, refer to [How are federal economic impact payments to support individuals during the COVID-19 pandemic recorded in the NIPAs?](#)

7. The Federal Emergency Management Agency (FEMA) was authorized to make payments from the Disaster Relief Fund to supplement wages lost as a result of the COVID-19 pandemic.

8. The Paycheck Protection Program, initially established by the CARES Act, provides forgivable loans to help small businesses and nonprofit institutions make payroll and cover other expenses. It also provides funding to reimburse private lending institutions for the costs of administering these loans. For more information, refer to [How does the Paycheck Protection Program impact the national income and product accounts \(NIPAs\)?](#)

9. The Department of Health and Human Services distributes money from the Provider Relief Fund to hospitals and health care providers on the front lines of the coronavirus response. This funding supports health care-related expenses or lost revenue attributable to COVID-19 and ensures uninsured Americans can get treatment for COVID-19. In the NIPAs, funds provided to nonprofit hospitals are recorded as social benefits.

10. The Coronavirus Food Assistance Program, initially established by the CARES Act, provides direct support to farmers and ranchers where prices and market supply chains have been impacted by the COVID-19 pandemic.

Data on this table will be superseded by updated estimates. Regional estimates were controlled to the update to the National accounts released [September 29, 2022](#).

U.S. Bureau of Economic Analysis

CARES -Coronavirus Aid, Relief, and Economic Security

NPISH -Nonprofit institutions serving households

(L) Less than \$50,000.

1. Midquarter population estimates by state are derived by BEA. BEA produced intercensal quarterly statistics for the second quarter of 2010 through the first quarter of 2020 that are tied to the Census Bureau decennial counts for 2010 and 2020. BEA developed intercensal population statistics because this data was not published when Census released state population data for 2020-2021, which are based on the 2020 decennial counts. BEA

2. Per capita personal income is total personal income divided by total quarterly population estimates. BEA produced intercensal population figures for the second quarter of 2010 to the first quarter of 2020 that are tied to the Census Bureau decennial counts for 2010 and 2020 to create consistent time series that are used to prepare per capita personal income statistics. BEA used the [Census Bureau Das Gupta method](#), modified to account for

3. A two percent reduction in reimbursements paid to Medicare service providers that went into effect in 2013 was initially suspended by the CARES Act. The resulting increased reimbursement rates went into effect beginning on May 1, 2020.

4. Unemployment insurance benefits were expanded through several programs that were initially established through the CARES Act. For more information, refer to [How will the expansion of unemployment benefits in response to the COVID-19 pandemic be recorded in the NIPAs?](#)

5. The American Rescue Plan increased the Child Tax Credit to \$3,000 per child over the age of six and \$3,600 for children under the age of six, and raised the age limit from 16 to 17. It also authorized that up to half of these credits could be distributed through advance payments during the tax year, while the rest would be claimed when parents file tax returns the following year.

6. Economic impact payments, initially established by the CARES Act, provide direct payments to individuals. For more information, refer to [How are federal economic impact payments to support individuals during the COVID-19 pandemic recorded in the NIPAs?](#)

7. The Federal Emergency Management Agency (FEMA) was authorized to make payments from the Disaster Relief Fund to supplement wages lost as a result of the COVID-19 pandemic.

8. The Paycheck Protection Program, initially established by the CARES Act, provides forgivable loans to help small businesses and nonprofit institutions make payroll and cover other expenses. It also provides funding to reimburse private lending institutions for the costs of administering these loans. For more information, refer to [How does the Paycheck Protection Program impact the national income and product accounts \(NIPAs\)?](#)

9. The Department of Health and Human Services distributes money from the Provider Relief Fund to hospitals and health care providers on the front lines of the coronavirus response. This funding supports health care-related expenses or lost revenue attributable to COVID-19 and ensures uninsured Americans can get treatment for COVID-19. In the NIPAs, funds provided to nonprofit hospitals are recorded as social benefits.

10. The Coronavirus Food Assistance Program, initially established by the CARES Act, provides direct support to farmers and ranchers where prices and market supply chains have been impacted by the COVID-19 pandemic.

Data on this table will be superseded by updated estimates. Regional estimates were controlled to the update to the National accounts released [September 29, 2022](#).

U.S. Bureau of Economic Analysis

1. Midquarter population estimates by state are derived by BEA. BEA produced intercensal quarterly statistics for the second quarter of 2010 through the first quarter of 2020 that are tied to the Census Bureau decennial counts for 2010 and 2020. BEA developed intercensal population statistics because this data was not published when Census released state population data for 2020-2021, which are based on the 2020 decennial counts. BEA

2. Per capita personal income is total personal income divided by total quarterly population estimates. BEA produced intercensal population figures for the second quarter of 2010 to the first quarter of 2020 that are tied to the Census Bureau decennial counts for 2010 and 2020 to create consistent time series that are used to prepare per capita personal income statistics. BEA used the [Census Bureau Das Gupta method](#), modified to account for

3. A two percent reduction in reimbursements paid to Medicare service providers that went into effect in 2013 was initially suspended by the CARES Act. The resulting increased reimbursement rates went into effect beginning on May 1, 2020.

4. Unemployment insurance benefits were expanded through several programs that were initially established through the CARES Act. For more information, refer to [How will the expansion of unemployment benefits in response to the COVID-19 pandemic be recorded in the NIPAs?](#)

5. The American Rescue Plan increased the Child Tax Credit to \$3,000 per child over the age of six and \$3,600 for children under the age of six, and raised the age limit from 16 to 17. It also authorized that up to half of these credits could be distributed through advance payments during the tax year, while the rest would be claimed when parents file tax returns the following year.

6. Economic impact payments, initially established by the CARES Act, provide direct payments to individuals. For more information, refer to [How are federal economic impact payments to support individuals during the COVID-19 pandemic recorded in the NIPAs?](#)

7. The Federal Emergency Management Agency (FEMA) was authorized to make payments from the Disaster Relief Fund to supplement wages lost as a result of the COVID-19 pandemic.

8. The Paycheck Protection Program, initially established by the CARES Act, provides forgivable loans to help small businesses and nonprofit institutions make payroll and cover other expenses. It also provides funding to reimburse private lending institutions for the costs of administering these loans. For more information, refer to [How does the Paycheck Protection Program impact the national income and product accounts \(NIPAs\)?](#)

For more information, refer to [How does the Paycheck Protection Program impact the national income and product accounts \(NIPAs\)?](#)

9. The Department of Health and Human Services distributes money from the Provider Relief Fund to hospitals and health care providers on the front lines of the coronavirus response. This funding supports health care-related expenses or lost revenue attributable to COVID-19 and ensures uninsured Americans can get treatment for COVID-19. In the NIPAs, funds provided to nonprofit hospitals are recorded as social benefits.

10. The Coronavirus Food Assistance Program, initially established by the CARES Act, provides direct support to farmers and ranchers where prices and market supply chains have been impacted by the COVID-19 pandemic.

Data on this table will be superseded by updated estimates. Regional estimates were controlled to the update to the National accounts released [September 29, 2022](#).

CARES -Coronavirus Aid, Relief, and Economic Security

NPISH -Nonprofit institutions serving households

(L) Less than \$50,000.

1. Midquarter population estimates by state are derived by BEA. BEA produced intercensal quarterly statistics for the second quarter of 2010 through the first quarter of 2020 that are tied to the Census Bureau decennial counts for 2010 and 2020. BEA developed intercensal population statistics because this data was not published when Census released state population data for 2020-2021, which are based on the 2020 decennial counts. BEA

2. Per capita personal income is total personal income divided by total quarterly population estimates. BEA produced intercensal population figures for the second quarter of 2010 to the first quarter of 2020 that are tied to the Census Bureau decennial counts for 2010 and 2020 to create consistent time series that are used to prepare per capita personal income statistics. BEA used the [Census Bureau Das Gupta method](#), modified to account for

3. A two percent reduction in reimbursements paid to Medicare service providers that went into effect in 2013 was initially suspended by the CARES Act. The resulting increased reimbursement rates went into effect beginning on May 1, 2020.

4. Unemployment insurance benefits were expanded through several programs that were initially established through the CARES Act. For more information, refer to [How will the expansion of unemployment benefits in response to the COVID-19 pandemic be recorded in the NIPAs?](#)

5. The American Rescue Plan increased the Child Tax Credit to \$3,000 per child over the age of six and \$3,600 for children under the age of six, and raised the age limit from 16 to 17. It also authorized that up to half of these credits could be distributed through advance payments during the tax year, while the rest would be claimed when parents file tax returns the following year.

6. Economic impact payments, initially established by the CARES Act, provide direct payments to individuals. For more information, refer to [How are federal economic impact payments to support individuals during the COVID-19 pandemic recorded in the NIPAs?](#)

7. The Federal Emergency Management Agency (FEMA) was authorized to make payments from the Disaster Relief Fund to supplement wages lost as a result of the COVID-19 pandemic.

8. The Paycheck Protection Program, initially established by the CARES Act, provides forgivable loans to help small businesses and nonprofit institutions make payroll and cover other expenses. It also provides funding to reimburse private lending institutions for the costs of administering these loans. For more information, refer to [How does the Paycheck Protection Program impact the national income and product accounts \(NIPAs\)?](#)

9. The Department of Health and Human Services distributes money from the Provider Relief Fund to hospitals and health care providers on the front lines of the coronavirus response. This funding supports health care-related expenses or lost revenue attributable to COVID-19 and ensures uninsured Americans can get treatment for COVID-19. In the NIPAs, funds provided to nonprofit hospitals are recorded as social benefits.

10. The Coronavirus Food Assistance Program, initially established by the CARES Act, provides direct support to farmers and ranchers where prices and market supply chains have been impacted by the COVID-19 pandemic.

Data on this table will be superseded by updated estimates. Regional estimates were controlled to the update to the National accounts released [September 29, 2022](#).

CARES -Coronavirus Aid, Relief, and Economic Security

NPISH -Nonprofit institutions serving households

(L) Less than \$50,000.

1. Midquarter population estimates by state are derived by BEA. BEA produced intercensal quarterly statistics for the second quarter of 2010 through the first quarter of 2020 that are tied to the Census Bureau decennial counts for 2010 and 2020. BEA developed intercensal population statistics because this data was not published when Census released state population data for 2020-2021, which are based on the 2020 decennial counts. BEA

2. Per capita personal income is total personal income divided by total quarterly population estimates. BEA produced intercensal population figures for the second quarter of 2010 to the first quarter of 2020 that are tied to the Census Bureau decennial counts for 2010 and 2020 to create consistent time series that are used to prepare per capita personal income statistics. BEA used the [Census Bureau Das Gupta method](#), modified to account for

3. A two percent reduction in reimbursements paid to Medicare service providers that went into effect in 2013 was initially suspended by the CARES Act. The resulting increased reimbursement rates went into effect beginning on May 1, 2020.

4. Unemployment insurance benefits were expanded through several programs that were initially established through the CARES Act. For more information, refer to [How will the expansion of unemployment benefits in response to the COVID-19 pandemic be recorded in the NIPAs?](#)

5. The American Rescue Plan increased the Child Tax Credit to \$3,000 per child over the age of six and \$3,600 for children under the age of six, and raised the age limit from 16 to 17. It also authorized that up to half of these credits could be distributed through advance payments during the tax year, while the rest would be claimed when parents file tax returns the following year.

6. Economic impact payments, initially established by the CARES Act, provide direct payments to individuals. For more information, refer to [How are federal economic impact payments to support individuals during the COVID-19 pandemic recorded in the NIPAs?](#)

7. The Federal Emergency Management Agency (FEMA) was authorized to make payments from the Disaster Relief Fund to supplement wages lost as a result of the COVID-19 pandemic.

8. The Paycheck Protection Program, initially established by the CARES Act, provides forgivable loans to help small businesses and nonprofit institutions make payroll and cover other expenses. It also provides funding to reimburse private lending institutions for the costs of administering these loans. For more information, refer to [How does the Paycheck Protection Program impact the national income and product accounts \(NIPAs\)?](#)

9. The Department of Health and Human Services distributes money from the Provider Relief Fund to hospitals and health care providers on the front lines of the coronavirus response. This funding supports health care-related expenses or lost revenue attributable to COVID-19 and ensures uninsured Americans can get treatment for COVID-19. In the NIPAs, funds provided to nonprofit hospitals are recorded as social benefits.

10. The Coronavirus Food Assistance Program, initially established by the CARES Act, provides direct support to farmers and ranchers where prices and market supply chains have been impacted by the COVID-19 pandemic.

Data on this table will be superseded by updated estimates. Regional estimates were controlled to the update to the National accounts released [September 29, 2022](#).

U.S. Bureau of Economic Analysis

CARES -Coronavirus Aid, Relief, and Economic Security

NPISH -Nonprofit institutions serving households

(L) Less than \$50,000.

- Midquarter population estimates by state are derived by BEA. BEA produced intercensal quarterly statistics for the second quarter of 2010 through the first quarter of 2020 that are tied to the Census Bureau decennial counts for 2010 and 2020. BEA developed intercensal population statistics because this data was not published when Census released state population data for 2020-2021, which are based on the 2020 decennial counts. BEA
- Per capita personal income is total personal income divided by total quarterly population estimates. BEA produced intercensal population figures for the second quarter of 2010 to the first quarter of 2020 that are tied to the Census Bureau decennial counts for 2010 and 2020 to create consistent time series that are used to prepare per capita personal income statistics. BEA used the [Census Bureau Das Gupta method](#), modified to account for
- A two percent reduction in reimbursements paid to Medicare service providers that went into effect in 2013 was initially suspended by the CARES Act. The resulting increased reimbursement rates went into effect beginning on May 1, 2020.
- Unemployment insurance benefits were expanded through several programs that were initially established through the CARES Act. For more information, refer to [How will the expansion of unemployment benefits in response to the COVID-19 pandemic be recorded in the NIPAs?](#)
- The American Rescue Plan increased the Child Tax Credit to \$3,000 per child over the age of six and \$3,600 for children under the age of six, and raised the age limit from 16 to 17. It also authorized that up to half of these credits could be distributed through advance payments during the tax year, while the rest would be claimed when parents file tax returns the following year.
- Economic impact payments, initially established by the CARES Act, provide direct payments to individuals. For more information, refer to [How are federal economic impact payments to support individuals during the COVID-19 pandemic recorded in the NIPAs?](#)
- The Federal Emergency Management Agency (FEMA) was authorized to make payments from the Disaster Relief Fund to supplement wages lost as a result of the COVID-19 pandemic.
- The Paycheck Protection Program, initially established by the CARES Act, provides forgivable loans to help small businesses and nonprofit institutions make payroll and cover other expenses. It also provides funding to reimburse private lending institutions for the costs of administering these loans. For more information, refer to [How does the Paycheck Protection Program impact the national income and product accounts \(NIPAs\)?](#)
- The Department of Health and Human Services distributes money from the Provider Relief Fund to hospitals and health care providers on the front lines of the coronavirus response. This funding supports health care-related expenses or lost revenue attributable to COVID-19 and ensures uninsured Americans can get treatment for COVID-19. In the NIPAs, funds provided to nonprofit hospitals are recorded as social benefits.
- The Coronavirus Food Assistance Program, initially established by the CARES Act, provides direct support to farmers and ranchers where prices and market supply chains have been impacted by the COVID-19 pandemic.

Data on this table will be superseded by updated estimates. Regional estimates were controlled to the update to the National accounts released [September 29, 2022](#).

CARES -Coronavirus Aid, Relief, and Economic Security

NPISH -Nonprofit institutions serving households

- Midquarter population estimates by state are derived by BEA. BEA produced intercensal quarterly statistics for the second quarter of 2010 through the first quarter of 2020 that are tied to the Census Bureau decennial counts for 2010 and 2020. BEA developed intercensal population statistics because this data was not published when Census released state population data for 2020-2021, which are based on the 2020 decennial counts. BEA
- Per capita personal income is total personal income divided by total quarterly population estimates. BEA produced intercensal population figures for the second quarter of 2010 to the first quarter of 2020 that are tied to the Census Bureau decennial counts for 2010 and 2020 to create consistent time series that are used to prepare per capita personal income statistics. BEA used the [Census Bureau Das Gupta method](#), modified to account for
- A two percent reduction in reimbursements paid to Medicare service providers that went into effect in 2013 was initially suspended by the CARES Act. The resulting increased reimbursement rates went into effect beginning on May 1, 2020.
- Unemployment insurance benefits were expanded through several programs that were initially established through the CARES Act. For more information, refer to [How will the expansion of unemployment benefits in response to the COVID-19 pandemic be recorded in the NIPAs?](#)
- The American Rescue Plan increased the Child Tax Credit to \$3,000 per child over the age of six and \$3,600 for children under the age of six, and raised the age limit from 16 to 17. It also authorized that up to half of these credits could be distributed through advance payments during the tax year, while the rest would be claimed when parents file tax returns the following year.
- Economic impact payments, initially established by the CARES Act, provide direct payments to individuals. For more information, refer to [How are federal economic impact payments to support individuals during the COVID-19 pandemic recorded in the NIPAs?](#)
- The Federal Emergency Management Agency (FEMA) was authorized to make payments from the Disaster Relief Fund to supplement wages lost as a result of the COVID-19 pandemic.
- The Paycheck Protection Program, initially established by the CARES Act, provides forgivable loans

CARES -Coronavirus Aid, Relief, and Economic Security

NPISH -Nonprofit institutions serving households

(L) Less than \$50,000.

1. Midquarter population estimates by state are derived by BEA. BEA produced intercensal quarterly statistics for the second quarter of 2010 through the first quarter of 2020 that are tied to the Census Bureau decennial counts for 2010 and 2020. BEA developed intercensal population statistics because this data was not published when Census released state population data for 2020-2021, which are based on the 2020 decennial counts. BEA

2. Per capita personal income is total personal income divided by total quarterly population estimates. BEA produced intercensal population figures for the second quarter of 2010 to the first quarter of 2020 that are tied to the Census Bureau decennial counts for 2010 and 2020 to create consistent time series that are used to prepare per capita personal income statistics. BEA used the [Census Bureau Das Gupta method](#), modified to account for

3. A two percent reduction in reimbursements paid to Medicare service providers that went into effect in 2013 was initially suspended by the CARES Act. The resulting increased reimbursement rates went into effect beginning on May 1, 2020.

4. Unemployment insurance benefits were expanded through several programs that were initially established through the CARES Act. For more information, refer to [How will the expansion of unemployment benefits in response to the COVID-19 pandemic be recorded in the NIPAs?](#)

5. The American Rescue Plan increased the Child Tax Credit to \$3,000 per child over the age of six and \$3,600 for children under the age of six, and raised the age limit from 16 to 17. It also authorized that up to half of these credits could be distributed through advance payments during the tax year, while the rest would be claimed when parents file tax returns the following year.

6. Economic impact payments, initially established by the CARES Act, provide direct payments to individuals. For more information, refer to [How are federal economic impact payments to support individuals during the COVID-19 pandemic recorded in the NIPAs?](#)

7. The Federal Emergency Management Agency (FEMA) was authorized to make payments from the Disaster Relief Fund to supplement wages lost as a result of the COVID-19 pandemic.

8. The Paycheck Protection Program, initially established by the CARES Act, provides forgivable loans to help small businesses and nonprofit institutions make payroll and cover other expenses. It also provides funding to reimburse private lending institutions for the costs of administering these loans. For more information, refer to [How does the Paycheck Protection Program impact the national income and product accounts \(NIPAs\)?](#)

9. The Department of Health and Human Services distributes money from the Provider Relief Fund to hospitals and health care providers on the front lines of the coronavirus response. This funding supports health care-related expenses or lost revenue attributable to COVID-19 and ensures uninsured Americans can get treatment for COVID-19. In the NIPAs, funds provided to nonprofit hospitals are recorded as social benefits.

10. The Coronavirus Food Assistance Program, initially established by the CARES Act, provides direct support to farmers and ranchers where prices and market supply chains have been impacted by the COVID-19 pandemic.

Data on this table will be superseded by updated estimates. Regional estimates were controlled to the update to the National accounts released [September 29, 2022](#).

CARES -Coronavirus Aid, Relief, and Economic Security

NPISH -Nonprofit institutions serving households

(L) Less than \$50,000.

1. Midquarter population estimates by state are derived by BEA. BEA produced intercensal quarterly statistics for the second quarter of 2010 through the first quarter of 2020 that are tied to the Census Bureau decennial counts for 2010 and 2020. BEA developed intercensal population statistics because this data was not published when Census released state population data for 2020-2021, which are based on the 2020 decennial counts. BEA

2. Per capita personal income is total personal income divided by total quarterly population estimates. BEA produced intercensal population figures for the second quarter of 2010 to the first quarter of 2020 that are tied to the Census Bureau decennial counts for 2010 and 2020 to create consistent time series that are used to prepare per capita personal income statistics. BEA used the [Census Bureau Das Gupta method](#), modified to account for

3. A two percent reduction in reimbursements paid to Medicare service providers that went into effect in 2013 was initially suspended by the CARES Act. The resulting increased reimbursement rates went into effect beginning on May 1, 2020.

4. Unemployment insurance benefits were expanded through several programs that were initially established through the CARES Act. For more information, refer to [How will the expansion of unemployment benefits in response to the COVID-19 pandemic be recorded in the NIPAs?](#)

5. The American Rescue Plan increased the Child Tax Credit to \$3,000 per child over the age of six and \$3,600 for children under the age of six, and raised the age limit from 16 to 17. It also authorized that up to half of these credits could be distributed through advance payments during the tax year, while the rest would be claimed when parents file tax returns the following year.

6. Economic impact payments, initially established by the CARES Act, provide direct payments to individuals. For more information, refer to [How are federal economic impact payments to support individuals during the COVID-19 pandemic recorded in the NIPAs?](#)

7. The Federal Emergency Management Agency (FEMA) was authorized to make payments from the Disaster Relief Fund to supplement wages lost as a result of the COVID-19 pandemic.

8. The Paycheck Protection Program, initially established by the CARES Act, provides forgivable loans to help small businesses and nonprofit institutions make payroll and cover other expenses. It also provides funding to reimburse private lending institutions for the costs of administering these loans. For more information, refer to [How does the Paycheck Protection Program impact the national income and product accounts \(NIPAs\)?](#)

9. The Department of Health and Human Services distributes money from the Provider Relief Fund to hospitals and health care providers on the front lines of the coronavirus response. This funding supports health care-related expenses or lost revenue attributable to COVID-19 and ensures uninsured Americans can get treatment for COVID-19. In the NIPAs, funds provided to nonprofit hospitals are recorded as social benefits.

10. The Coronavirus Food Assistance Program, initially established by the CARES Act, provides direct support to farmers and ranchers where prices and market supply chains have been impacted by the COVID-19 pandemic.

Data on this table will be superseded by updated estimates. Regional estimates were controlled to the update to the National accounts released [September 29, 2022](#).

CARES - Coronavirus Aid, Relief, and Economic Security

NPISH - Nonprofit institutions serving households

- Midquarter population estimates by state are derived by BEA. BEA produced intercensal quarterly statistics for the second quarter of 2010 through the first quarter of 2020 that are tied to the Census Bureau decennial counts for 2010 and 2020. BEA developed intercensal population statistics because this data was not published when Census released state population data for 2020-2021, which are based on the 2020 decennial counts. BEA
- Per capita personal income is total personal income divided by total quarterly population estimates. BEA produced intercensal population figures for the second quarter of 2010 to the first quarter of 2020 that are tied to the Census Bureau decennial counts for 2010 and 2020 to create consistent time series that are used to prepare per capita personal income statistics. BEA used the [Census Bureau Das Gupta method](#), modified to account for
- A two percent reduction in reimbursements paid to Medicare service providers that went into effect in 2013 was initially suspended by the CARES Act. The resulting increased reimbursement rates went into effect beginning on May 1, 2020.
- Unemployment insurance benefits were expanded through several programs that were initially established through the CARES Act. For more information, refer to [How will the expansion of unemployment benefits in response to the COVID-19 pandemic be recorded in the NIPAs?](#)
- The American Rescue Plan increased the Child Tax Credit to \$3,000 per child over the age of six and \$3,600 for children under the age of six, and raised the age limit from 16 to 17. It also authorized that up to half of these credits could be distributed through advance payments during the tax year, while the rest would be claimed when parents file tax returns the following year.
- Economic impact payments, initially established by the CARES Act, provide direct payments to individuals. For more information, refer to [How are federal economic impact payments to support individuals during the COVID-19 pandemic recorded in the NIPAs?](#)
- The Federal Emergency Management Agency (FEMA) was authorized to make payments from the Disaster Relief Fund to supplement wages lost as a result of the COVID-19 pandemic.
- The Paycheck Protection Program, initially established by the CARES Act, provides forgivable loans to help small businesses and nonprofit institutions make payroll and cover other expenses. It also provides funding to reimburse private lending institutions for the costs of administering these loans. For more information, refer to [How does the Paycheck Protection Program impact the national income and product accounts \(NIPAs\)?](#)
- The Department of Health and Human Services distributes money from the Provider Relief Fund to hospitals and health care providers on the front lines of the coronavirus response. This funding supports health care-related expenses or lost revenue attributable to COVID-19 and ensures uninsured Americans can get treatment for COVID-19. In the NIPAs, funds provided to nonprofit hospitals are recorded as social benefits.
- The Coronavirus Food Assistance Program, initially established by the CARES Act, provides direct support to farmers and ranchers where prices and market supply chains have been impacted by the COVID-19 pandemic.

Data on this table will be superseded by updated estimates. Regional estimates were controlled to the update to the National accounts released [September 29, 2022](#).

U.S. Bureau of Economic Analysis

CARES -Coronavirus Aid, Relief, and Economic Security

NPISH -Nonprofit institutions serving households

(L) Less than \$50,000.

1. Midquarter population estimates by state are derived by BEA. BEA produced intercensal quarterly statistics for the second quarter of 2010 through the first quarter of 2020 that are tied to the Census Bureau decennial counts for 2010 and 2020. BEA developed intercensal population statistics because this data was not published when Census released state population data for 2020-2021, which are based on the 2020 decennial counts. BEA

2. Per capita personal income is total personal income divided by total quarterly population estimates. BEA produced intercensal population figures for the second quarter of 2010 to the first quarter of 2020 that are tied to the Census Bureau decennial counts for 2010 and 2020 to create consistent time series that are used to prepare per capita personal income statistics. BEA used the [Census Bureau Das Gupta method](#), modified to account for

3. A two percent reduction in reimbursements paid to Medicare service providers that went into effect in 2013 was initially suspended by the CARES Act. The resulting increased reimbursement rates went into effect beginning on May 1, 2020.

4. Unemployment insurance benefits were expanded through several programs that were initially established through the CARES Act. For more information, refer to [How will the expansion of unemployment benefits in response to the COVID-19 pandemic be recorded in the NIPAs?](#)

5. The American Rescue Plan increased the Child Tax Credit to \$3,000 per child over the age of six and \$3,600 for children under the age of six, and raised the age limit from 16 to 17. It also authorized that up to half of these credits could be distributed through advance payments during the tax year, while the rest would be claimed when parents file tax returns the following year.

6. Economic impact payments, initially established by the CARES Act, provide direct payments to individuals. For more information, refer to [How are federal economic impact payments to support individuals during the COVID-19 pandemic recorded in the NIPAs?](#)

7. The Federal Emergency Management Agency (FEMA) was authorized to make payments from the Disaster Relief Fund to supplement wages lost as a result of the COVID-19 pandemic.

8. The Paycheck Protection Program, initially established by the CARES Act, provides forgivable loans to help small businesses and nonprofit institutions make payroll and cover other expenses. It also provides funding to reimburse private lending institutions for the costs of administering these loans. For more information, refer to [How does the Paycheck Protection Program impact the national income and product accounts \(NIPAs\)?](#)

9. The Department of Health and Human Services distributes money from the Provider Relief Fund to hospitals and health care providers on the front lines of the coronavirus response. This funding supports health care-related expenses or lost revenue attributable to COVID-19 and ensures uninsured Americans can get treatment for COVID-19. In the NIPAs, funds provided to nonprofit hospitals are recorded as social benefits.

10. The Coronavirus Food Assistance Program, initially established by the CARES Act, provides direct support to farmers and ranchers where prices and market supply chains have been impacted by the COVID-19 pandemic.

Data on this table will be superseded by updated estimates. Regional estimates were controlled to the update to the National accounts released [September 29, 2022](#).

U.S. Bureau of Economic Analysis

CARES -Coronavirus Aid, Relief, and Economic Security

NPISH -Nonprofit institutions serving households

(L) Less than \$50,000.

1. Midquarter population estimates by state are derived by BEA. BEA produced intercensal quarterly statistics for the second quarter of 2010 through the first quarter of 2020 that are tied to the Census Bureau decennial counts for 2010 and 2020. BEA developed intercensal population statistics because this data was not published when Census released state population data for 2020-2021, which are based on the 2020 decennial counts. BEA

2. Per capita personal income is total personal income divided by total quarterly population estimates. BEA produced intercensal population figures for the second quarter of 2010 to the first quarter of 2020 that are tied to the Census Bureau decennial counts for 2010 and 2020 to create consistent time series that are used to prepare per capita personal income statistics. BEA used the [Census Bureau Das Gupta method](#), modified to account for

3. A two percent reduction in reimbursements paid to Medicare service providers that went into effect in 2013 was initially suspended by the CARES Act. The resulting increased reimbursement rates went into effect beginning on May 1, 2020.

4. Unemployment insurance benefits were expanded through several programs that were initially established through the CARES Act. For more information, refer to [How will the expansion of unemployment benefits in response to the COVID-19 pandemic be recorded in the NIPAs?](#)

5. The American Rescue Plan increased the Child Tax Credit to \$3,000 per child over the age of six and \$3,600 for children under the age of six, and raised the age limit from 16 to 17. It also authorized that up to half of these credits could be distributed through advance payments during the tax year, while the rest would be claimed when parents file tax returns the following year.

6. Economic impact payments, initially established by the CARES Act, provide direct payments to individuals. For more information, refer to [How are federal economic impact payments to support individuals during the COVID-19 pandemic recorded in the NIPAs?](#)

7. The Federal Emergency Management Agency (FEMA) was authorized to make payments from the Disaster Relief Fund to supplement wages lost as a result of the COVID-19 pandemic.

8. The Paycheck Protection Program, initially established by the CARES Act, provides forgivable loans to help small businesses and nonprofit institutions make payroll and cover other expenses. It also provides funding to reimburse private lending institutions for the costs of administering these loans. For more information, refer to [How does the Paycheck Protection Program impact the national income and product accounts \(NIPAs\)?](#)

9. The Department of Health and Human Services distributes money from the Provider Relief Fund to hospitals and health care providers on the front lines of the coronavirus response. This funding supports health care-related expenses or lost revenue attributable to COVID-19 and ensures uninsured Americans can get treatment for COVID-19. In the NIPAs, funds provided to nonprofit hospitals are recorded as social benefits.

10. The Coronavirus Food Assistance Program, initially established by the CARES Act, provides direct support to farmers and ranchers where prices and market supply chains have been impacted by the COVID-19 pandemic.

Data on this table will be superseded by updated estimates. Regional estimates were controlled to the update to the National accounts released [September 29, 2022](#).

For more information, refer to [How does the Paycheck Protection Program impact the national income and product accounts \(NIPAs\)?](#)

9. The Department of Health and Human Services distributes money from the Provider Relief Fund to hospitals and health care providers on the front lines of the coronavirus response. This funding supports health care-related expenses or lost revenue attributable to COVID-19 and ensures uninsured Americans can get treatment for COVID-19. In the NIPAs, funds provided to nonprofit hospitals are recorded as social benefits.

10. The Coronavirus Food Assistance Program, initially established by the CARES Act, provides direct support to farmers and ranchers where prices and market supply chains have been impacted by the COVID-19 pandemic.

Data on this table will be superseded by updated estimates. Regional estimates were controlled to the update to the National accounts released [September 29, 2022](#).
